[illegible] returned through Comdg Officer Fort Huachuca Ariz with the information that the withdrawal of 2 lots of Supply and one Troop leaving still leaves this garrison with one more Troop than originally and that all the pipe and fittings that were on hand have been used in making necessary repairs; at the present time then an none of the articles called for on this estimate but what are absolutely necessary, the cold weather has now set in and some of the pipes have already burst, and I have nothing with which to repair them but in view of the letter of the Chief Qr. Mr. Dept of Ariz, dated Nov 6th, if I can be furnished with one half the quantity called for on the estimate I think that the most necessary repairs can be made. I therefore respectfully urge that one half the quantity called for in the enclosed estimate be furnished me as soon as practicable
