Mr. H. F. Robinson,
Superintendent of Irrigation,
[illegible]

My dear Mr. Robinson:

I have your report on the water development, Navajo and Hopi Reservations.

The point I [illegible] all the available data [illegible] to each particular well or spring, [illegible] that it would not be necessary to look through several histories or reports in order to get all the data on each particular case.

In case you have data in your office that will make any [illegible] have [illegible] the sheets [illegible] up to [illegible] consistencies in that the well record would indicate one thing and the information given under remarks would indicate another. Yours very truly,

The following list of wells appears to need additional information to give a clear understanding of the conditions now existing. You undoubtedly have this record in your office and the data, noted as missing, in reference to the particular wells indicated, would make the matter much more clear:

Well No.	1.	No equipment shown. Probably purchased and installed by school, but nothing shown on record to this effect.
Well No.	2.	No date. Equipment not shown.
