Low Water Use/Drought Tolerant Plant List

Official Regulatory List for the Tucson Active Management Area
Arizona Department of Water Resources

Acknowledgements

The list of plants in this document was prepared in 2010 by the Arizona Department of Water Resources (ADWR) in cooperation with plant and landscape plant specialists from the Tucson AMA and other experts. ADWR extends its gratitude to the following members of the Tucson AMA Plant List Advisory Committee for their generous contribution of time and expertise:

Assists Regulated Water Users

The use of low water use/drought tolerant plants is required in public rights of way and in other instances as described in the Fourth Management Plan[1] . The Low Water Use/Drought Tolerant Plant List was developed to assist regulated water users in selecting landscaping plants that meet these requirements. Following are the sections in the Fourth Management Plan of the Tucson Active Management Area in which the list is referenced:

- Section 5-701(4) and (41) Definitions, Low Water Use/Drought Tolerant Plant List for the TAMA and Water-intensive landscaped area
- Section 5-709(A)(3), Individual User Requirements for Municipal Providers and Individual Users, requirements for public rights-of way
- Section 6.6.1, Introduction to All Industrial Users Conservation Program
- Section 6.6.3, All Industrial User Program Description
- Section 6.7.4.2, Additional Conservation Requirements for
- Section 6-1501(6), Definitions, Low Water Use/Drought Tolerant Plant List
- Section 6-1502(4) and (5), Conservation Requirements
- Section 6-1503(A)(6), Monitoring and Reporting Requirements
- Section 6-1601(11) and (19), Definitions
- Section 6-1602(C)(2), Conservation Requirements for Turf-Related Facilities
- Section 6-1603(B)(2)(a) Calculation of Maximum Annual Water Allotment for Turf-Related Facilities

[1] The 1980 Groundwater Code requires the preparation of a series of water management plans for each AMA that includes mandatory conservation programs. The proposed Fourth Management Plan for the Tucson Active Management Area was issued in 2015.

- Section 6-2201(5)(a), Definitions
- Section 6-2203(3), Monitoring and Reporting Requirements

Request to Waive the Requirement

Pursuant to the Fourth Management Plan for the Tucson Active Management Area sections 5-709(A)(3) and 6-1302(4), the director may waive the requirement to use plants on the low water use/drought tolerant plant list if the water user demonstrates to the satisfaction of the director that the plants on the list cannot grow in a publicly owned right-of-way because of high elevation or low light conditions, such as a freeway underpass. Those who wish to request a waiver should submit their request in writing or by email to:

Jeff Tannler, AMA Director
Arizona Department of Water Resources
3550 N. Central Avenue, 2nd Floor
Phoenix, AZ 85012
jmtannler@azwater.gov

The following information should be included:

1. Description of the location of the publicly owned right-of way
2. Map showing the location of the right-of way and the place where plants will be located
3. Scientific and common name of the plant under consideration
4. Description of plant's water needs, including references

A Resource for Communities, Residents and Businesses

The Low Water Use/Drought Tolerant Plant List is a valuable resource for communities, residents and businesses that are interested in conserving water through low water-use landscaping. Plants on the Tucson AMA list can be grown in the Tucson area with very low to moderate supplemental irrigation once they are established. Supplemental irrigation should be of sufficient quantity to saturate the plant's root zone. All plants listed can grow with less water than traditional high water-use landscape plants, and do not require more than the ADWR regulations for low water-use plants in the Tucson AMA, a maximum of 18 inches of supplemental irrigation on an annual basis, not including rainfall. In addition to water requirements, other suitability factors (e.g., highly invasive, cold hardiness, etc.) may be considered to determine acceptability for individual plants for addition to the list.

Request to Modify the List

Prior to the 2008 state budget shortfall and subsequent closure of the AMA satellite offices, ADWR staff and landscape technical committees in the AMAs reviewed requests for modifying the Low Water Use/ Drought Tolerant Plant Lists. ADWR is currently exploring ideas for developing a web platform for managing the plant lists and making the information available to the regulated community and the public, revitalizing the landscape technical committees, and developing a web-based system for evaluating requests for modification. However, at the current time, anyone wishing to add, delete or modify information on the Low Water Use/Drought Tolerant Plant List is encourage to submit their request to the director in writing or email to:

Jeff Tannler, AMA Director
Arizona Department of Water Resources
3550 N. Central Avenue, 2nd Floor
Phoenix, AZ 85012
jmtannler@azwater.gov

DEFINITIONS AND KEY TO SYMBOLS

Water Use (WU)
1 = Very low: irrigate every 3 to 6 weeks during the growing season after establishment
2 = Low: irrigate every 2 to 4 weeks during the growing season after establishment
3 = Moderate: irrigate every 1 to 3 weeks during the growing season after establishment

Irrigation
Most plants require regular irrigation during the first 2 to 3 year establishment period. Plants should be watered to their root depth. Mature trees should be watered to a depth of 24" to 36"; Shrubs – 18" to 24"; Groundcovers and Vines – 8" to 12". Winter growers will require less frequent irrigation due to cooler temperatures.

- *0.62 gallons of water is equivalent to one inch of precipitation on one square foot of soil.*
- *Average annual rainfall for Tucson is 11 to 12". In low rainfall years the plants on the list may need additional irrigation to maintain good appearance and plant health.*

Growing Season (GS)
Wi winter – apply water September through March; less frequently in off season
Su summer – apply water March through September; less frequently in off season

Plant Type (PT)
A accent plant
C cactus
Gc groundcover
Gr ornamental grass
An annual
S shrub
Sc succulent
T tree
V vine
P perennial (herbaceous)

Flower Color
Includes annotations for fall color, berries, etc.

Height
H Mature plant height measured in feet
W Mature canopy size measured in feet

Allergenicity (AL)*
a strongly allergenic
b moderately allergenic
c weakly allergenic

**Allergenicity of the plants was* classified with *the help and advice of Michael J. Schumacher, M.D., Allergy-Immunology Section, University of Arizona Health Sciences Center and Mark R. Snell, Ph.D., Office of Pollen and Mold Control, Pima County Health Dept.*

Freezing Temperature (°F)
Approximate freezing temperatures are provided in degrees Fahrenheit. If plants do not suffer any damage at 25°F or below, they are considered cold hardy for our region.

** The timing of the freeze, duration of the freeze, next day's temperature and the second night temperatures will affect how severely damaged the plant will be.*

Origin
Note: Native plants are listed under Origin using the following symbols:

CD Chihuahuan Desert – includes north central and NW Mexico, SW Texas, southern New Mexico and extreme SE Arizona

SD Sonoran Desert – includes arid and semi-arid areas of NW Mexico SE California and most of Arizona south of the Mogollon Rim

Toxic
May be harmful if eaten. Call Poison Control Center AZ at 800-362-2720 or AZ Poison & Drug Information Center at 800-222-1222

Invasive (INV)
May spread and intrude into natural areas

Spreads in Cultivated Areas (SCA)
May spread by seed or sucker in urban or cultivated areas and in disturbed soils

Alphabetical Order by Botanical Name

BOTANICAL NAME	COMMON NAME	PLANT TYPE
Abutilon palmeri	Indian Mallow	S
Acacia aneura	Mulga	T
Acacia angustissima	White Ball Acacia	S
Acacia berlandieri	Guajillo	T, S
Acacia constricta	Whitethorn, Mescat Acacia	T, S
Acacia crasspedocarpa	Waxleaf Acacia	T, S
Acacia cultriformis	Knife-Leaf Acacia	T, S
Acacia farnesiana (smalli)	Southwestern Sweet Acacia	T, S
Acacia greggii	Catclaw Acacia	T, S
Acacia notabilis	Notable Acacia	S
Acacia redolens	Prostrate Acacia	S, Gc
Acacia rigidula	Black Brush Acacia	T, S
Acacia salicina	Willow Acacia	T
Acacia saligna	Weeping Wattle	T
Acacia schaffneri	Twisted Acacia	T
Acacia stenophylla	Pencilleaf Acacia	T
Acacia willardiana	Palo Blanco	T
Achnatherum hymenoides (Oryzopsis hymenoides)	Indian Ricegrass	Gr
Agave americana & varieties	Century Plant	A, Sc
Agave angustifolia v. marginata	Narrow leaf Agave	A, Sc
Agave bovicornuta	Cow's Horn Agave	A, Sc
Agave bracteosa	Spider Agave	A, Sc
Agave celsii	Agave	A, Sc
Agave chrysantha	Golden Flower Agave	A, Sc
Agave colorata	Mescal Ceniza, Blue Century Plant	A, Sc
Agave desmettiana & varieties	Smooth Agave	A, Sc
Agave filifera	Agave	A, Sc
Agave geminiflora-solitary	Twin-flowered Agave	A, Sc
Agave havardiana	Havard Agave	A, Sc
Agave lophantha (univittata)	Holly Agave; Center Stripe Agave	A, Sc
Agave macroacantha	Black Spine Agave	A, Sc
Agave montana	Mountain Agave	A, Sc
Agave multifilifera	Chahuiqui	A, Sc
Agave murpheyi	Murphy Agave	A, Sc
Agave ocahui	Ocahui Agave	A, Sc
Agave ovatifolia	Whales Tongue Agave	A, Sc
Agave palmeri	Palmer Agave	A, Sc
Agave parrasana	Parras Agave	A, Sc
Agave parryi & varieties	Agave	A, Sc
Agave parryi var. huachucensis	Huachuca Agave	A, Sc
Agave parviflora	Small Flowered Agave	A, Sc
Agave pelona	Mescal Pelon	A, Sc
Agave potatorum	Butterfly Agave	A, Sc

BOTANICAL NAME	COMMON NAME	PLANT TYPE
Agave salmiana ssp. Ferox	Pulque Agave, Salm's Agave	A, Sc
Agave scabra	Rough-leaved Agave	A, Sc
Agave schidigera	Agave	A, Sc
Agave shawii	Agave	A, Sc
Agave striata	Needle-leaf Agave, Espidine	A, Sc
Agave utahensis	Utah Agave	A, Sc
Agave victoriae-reginae & varieties	Queen Victoria Agave	A, Sc
Agave vilmoriniana	Octopus Agave	A, Sc
Agave weberi	Weber Agave	A, Sc
Aloe barbadensis	Aloe Vera, Medicinal Aloe	Sc
Aloe ferox	Cape Aloe	Sc
Aloe saponaria	Tiger Aloe, Mediterranean Aloe	Sc
Aloe variegata	Partridge Breast Aloe	Sc
Aloe x 'Blue Elf'	Blue Elf Aloe	A, Sc
Aloysia gratissima	Fragrant Bush, Bee Bush	S
Aloysia wrightii	Wright's Bee Bush	S
Ambrosia deltoidea (Franseria)	Triangle-leaf Bursage	S
Ambrosia dumosa (Franseria)	White Bursage	S
Amsonia grandiflora	Large-flowered Blue Star	S, P
Anisacanthus quadrifidus & varieties	Flame Anisacanthus	S
Anisacanthus thurberi	Desert Honeysuckle	S
Antigonon leptopus	Queen's Wreath	V
Aristida purpurea	Purple Three-awn	Gr
Artemisia ludoviciana	Prairie Sagebrush, Wormwood	S, Gc
Asclepias linaria	Pine Leaf Milkweed	S
Asclepias subulata	Desert Milkweed	P
Aster bigelovii	Purple Aster	An
Aster tanacetifolius	Purple Aster	An
Atriplex canescens	Four-Wing Saltbush	S
Atriplex lentiformis	Quail Bush	S
Atriplex lentiformis breweri	Brewer Saltbush	S
Atriplex nummularia	Old Man Saltbush	S
Atriplex polycarpa	Desert Saltbush	S
Atriplex semibaccata	Australian Saltbush	S
Baccharis hybrid 'Starn'	Thompson Broom	Gc
Baccharis sarothroides and hybrids (males only)	Desert Broom	S
Bahia absinthifolia	Desert Daisy	P
Baileya multiradiata	Desert Marigold	P
Bauhinia lunaroides	Pink or White Orchid Tree	S
Bebbia juncea	Sweet Bush, Chuckwalla's Delight	S, P
Berberis harrisoniana	Barberry	S
Berberis trifoliate	Algerita	S
Berlandiera lyrata	Chocolate Flower	P
Bothriochloa barbinodis	Cane Beardgrass, Cane Bluestem	Gr
Bougainvillea spp.	Bougainvillea	S, V

BOTANICAL NAME	COMMON NAME	PLANT TYPE
Bouteloua spp.	Grama Grass	Gr
Brachychiton populneus	Bottle Tree	T
Brahea (Erythea) armata	Mexican Blue Palm	T
Buchloe dactyloides	Buffalo Grass	Gr
Buddleia marrubifolia	Wooly Butterfly Bush	S
Bulbine frutescens and cultivars	Shrubby Bulbine	Sc
Caesalpinia cacalaco	Cascalote	S
Caesalpinia gilliesii (Poinciana)	Yellow Bird of Paradise	S
Caesalpinia mexicana (Poinciana)	Mexican Bird of Paradise (yellow)	S
Caesalpinia pulcherrima	Red Bird of Paradise	S
Callaeum macropterum (Mascagnia macroptera)	Yellow Orchid Vine	V
Calliandra californica	Baja Fairy Duster	S
Calliandra eriophylla	Fairy Duster, False Mesquite	S
Calliandra peninsularis	Red Calliandra, Baja Fairy Duster	S
Callistemon citrinus	Lemon Bottlebrush	T, S
Calylophus hartwegii & varieties	Calylophus, Yellow Evening Primrose	Gc
Campsis radicans	Common Trumpet Creeper	V
Carnegiea gigantean	Saguaro	C
Carpobrotus edulis (Mesembryanthemum edulis)	Ice Plant	Gc, Sc
Cassia artemisioides (Senna)	Wormwood Senna, Feathery Cassia	S
Cassia nemophila (C.eremophila)	Green Cassia	S
Cassia phyllodinea	Silvery Cassia	S
Casuarina cunninghamiana	Australian Pine	T
Casuarina stricta	Coast Beefwood	T
Cathestecum erectum	False Grama	Gr
Celtis pallida	Spiny or Desert Hackberry	S
Celtis reticulate	Netleaf or Western Hackberry	T
Centaurea cineraria	Dusty Miller	P
Cephalophyllum aestonii `Red Spike'	Red Spike Ice Plant	Gc, Sc
Ceratonia silique	Carob, St. John's Bread Tree	T
Cercis canadensis v. Mexicana	Mexican Redbud	T, S
Cereus hildmannianus (C. peruvianus)	Peruvian Cereus, Hedge Cactus	C
Chamaerops humilis	Mediterranean Fan Palm	T
Chilopsis linearis and cultivars	Desert Willow	T, S
Chrysactinia Mexicana	Damianita Daisy	S
Cissus trifoliata v. incise	Desert Grape Ivy	V
Condalia globosa	Bitter Condalia	T, S
Condalia warnockii v. kearneyana	Condalia, Mexican Pincushion	S
Convolvulus cneorum	Bush Morning Glory	S, Gc
Convolvulus mauritanicus	Ground Morning Glory	Gc
Cordia boissieri	Anacahuita, Texas Olive	T, S
Cordia parvifolia	Littleleaf Cordia	S
Cupressus arizonica & varieties	Rough-barked Arizona Cypress	T
Cupressus glabra	Smooth Bark Cypress	T
Cylindropuntia bigelovii (Opuntia)	Teddy Bear Cholla	C

BOTANICAL NAME	COMMON NAME	PLANT TYPE
Cylindropuntia versicolor (Opuntia)	Staghorn Cholla	C
Dalbergia sissoo	Rosewood	T
