EFFORTS MADE BY HOPIS TO USE THE JOINT USE AREA

1. Between 1964 and 1965 thirty-two Hopi livestock operators requested grazing permits in the Joint-Use area for a total of 2425 head of cattle and 54 horses. All permits were denied to Hopis by the Washington office.

2. There are still 15 Hopis trying to use the Joint-Use area but they pay the price in stolen calves, running of their cattle back to District 6 and general harassment by Navajos living in the Joint-Use area. The following people are trying to use the Joint-Use area with little success.

NAME	No. Livestock	No. Years In Joint-Use Area.
Sekaquaptewa Family Helen) Abbott) Wayne) Eugene) Henry Tewanema) Lawrence Lomastka)	400 Head Cattle	40 Years
Walter Albert	11 Head Cattle	30 Years
Paul Chimerica	44 Head Cattle	15 Years
Nathan Fred	10 Head Cattle	2 Years
Ted Namingha, Sr.) Ted Namingha, Jr.) Clifford Namingha) Marshall Namingha)	29 Head Cattle	15 Years
Harrington Navasie	20 Sheep	40 Years
Virgina Taylor	15 Head Cattle	10 Years

3. During the calendar year 1971 members of the Hopi Tribe developed two water wells, one spring, laid 10 miles of pipeline and erected two large storage tanks in the Joint-Use area to assist Hopi livestock operators in using the area. At Howell Mesa this was met with massive resistance and the building of a fence to keep the Hopis from using the well and pipeline they hadjust completed.
