Chicago Feb 1st

Dear Mr Clotts

Herewith is returned Mr Hornberger's letter and his release request has been forwarded to Washington which is pro forma procedure.

Hate to see Hornberger get out of our reach but guess there is no help for it

Simmons who was in Washington a day or so ago said he saw Weather who arrived last Thursday I believe Harriet heard anything from him directly as yet He told Simmons he had large size plans of producing food-stuff "in situ" was going out to West Coast shortly to requisition some pumps

The enclosed on the P.D. will I think put you up to date This is our revision of the one Chapman sent our here which presumably was prepared by Lee Muck The draft only went over Saturday so haven't heard the explosion yet As you will note we tried to put in all the monkey wrenches we could think off will ~~send copy~~ All included Permit tomorrow or [illegible] day

Had a wire from Anderson this AM saying he was heading this way Guess he got tired writing love letters to the Sect

Will write a letter in a day or two about Navajo Stewart is in Washington and we had long telegram from the Acting Supt saying he was about out of money wanted $30000 Going to have conf. with Stewart Afraid they are in bad way as they have let $115000 go into some sink hole since last June 30 No point in giving thors boys any money at that rate

Trust all goes well Regards

C.H.S.

P.S. Understand my reallocation has generally cleared but not made official as yet. C.H.S.
