RODENT AND PREDATORY ANIMAL CONTROL HEADQUARTERS
402 FEDERAL BUILDING ANNEX, ALBUQUERQUE, N. MEX.

April 18, 1933

Merry B/L for issue this request shipment to Gallup. [illegible]

Mr. E. R. McCray
Superintendent
Northern Navajo Agency
Shiprock, New Mexico

Dear Sir:

We are in receipt of your letter of April 14, requesting that we supply you with a small amount of poison for pole cat control.

At the present time, our predatory animal poison is put up in tablet form, each tablet containing 1.75 grains of strychnine. We have a small container which holds two hundred and fifty tablets, and we will be glad to send you one of these, express charges collect. There will be no charge for the poison.

We presume that your nearest express shipping point is Farmington, New Mexico, but we would appreciate hearing from you definitely as to where this material should be shipped. Poison, as you are no doubt aware, can not be sent through the mail.

We will give your order immediate attention upon receipt of your reply, giving us information in relation to your express shipping point.

Very truly yours,

John C. Gatlin
