ARIZONA DEPARTMENT OF WATER RESOURCES

BMP WORKSHEET REPORT

ANNUAL REPORT 2004

BMP Farm Unit No. _____

BMP Farm Unit Name: _____

PART 1 - Description of Water Conveyance System Improvements

Please describe the extent of each type of water conveyance system change or improvement implemented on the BMP Farm Unit during 2004. If no changes or improvements were made, please so indicate.

_____

_____

_____

PART 2 - Description of Farm Irrigation System Improvements

Please describe the extent of each type of farm irrigation system change implemented on the BMP Farm Unit during 2004. If no changes or improvements were made, please so indicate.

_____

_____

_____

PART 3 - Irrigation Water Management Practices Applied

Please check from the list below the types of irrigation water management BMPs that were applied on the BMP Farm Unit during 2004.

☐ BMP 3.1 Laser touch-up ☐ BMP 3.2 Alternate row irrigation ☐ BMP 3.3 Furrow checks

☐ BMP 3.4 Angled rows ☐ BMP 3.5 Surge irrigation ☐ BMP 3.6 Temporary sprinklers

☐ BMP 3.7 Participation in an educational irrigation water management program

☐ BMP 3.8 Participation in a consultant or irrigation district sponsored irrigation scheduling service

☐ BMP 3.9 Participation in an irrigation district program to increase the flexibility of water deliveries

☐ BMP 3.10 Measure flow rates ☐ BMP 3.11 Soil moisture monitoring ☐ BMP 3.12 Computer Scheduling

☐ Approved substitute BMP (note below)

Please indicate below if the BMPs checked are different than what was agreed to at time of enrollment into the BMP Program. If you are practicing different BMPs indicate your reasons for doing so.

_____

_____

_____

PART 4 - Agronomic Management Practices Applied

Please check from the list below the types of agronomic management BMPs that were applied on the BMP Farm Unit during 2004.

☐ BMP 4.1 Crop rotation ☐ BMP 4.2 Crop residue management ☐ BMP 4.3 Soil and water quality testing

☐ BMP 4.4 Pre-irrigation surface conditioning ☐ BMP 4.5 Transplants ☐ BMP 4.6 Mulching

☐ BMP 4.7 Shaping furrow or bed ☐ BMP 4.8 Planting in bottom of furrow ☐ Approved substitute BMP

Please indicate below if the BMPs checked are different than what was agreed to at time of enrollment into the BMP Program. If you are practicing different BMPs indicate your reasons for doing so.

SCHEDULE BMP

INSTRUCTIONS FOR COMPLETING THE SCHEDULE BMP

As a part of water use reporting for your BMP Farm Unit, the BMP farm operator is required to complete a Schedule BMP annually. It updates your BMP Worksheet, which was included as a part of your BMP Enrollment Application. The operator files only one Schedule BMP for the entire BMP Farm Unit. Your BMP Farm Unit is made up of the Irrigation Rights listed on this schedule under the heading "Irrigation Rights Within the BMP Farm Unit."

As you complete the Schedule BMP, you may wish to consult the definitions of Approved Best Management Practices, Appendix 4B to the Third Management Plan. These definitions were included in your application package, and are on the ADWR website, at www.water.az.gov/Forms, under the heading "BMP Annual Reports".

INSTRUCTIONS - PART 1 and PART 2

In the spaces given, please briefly describe the extent of each type of water conveyance system change or farm irrigation system change implemented on the BMP farm unit during 2004. If no changes or improvements were made, please so indicate. NOTE: The BMP farm unit must score a minimum of two points in PART 2.

INSTRUCTIONS - PART 3 and PART 4

Please check the irrigation water management practices and agronomic management practices that you applied on the farm during 2004. The BMP Worksheet that you submitted as a part of your BMP Enrollment Application indicated the irrigation water management and agronomic management practices you planned to apply at the beginning of 2004. Please use the Schedule BMP to report the practices you actually applied. So long as the BMP's actually applied still total at least ten points, you were free to choose different irrigation water or agronomic management BMP's than those indicated on your BMP Enrollment Worksheet. Please check the practices actually applied on the farm during 2004. In the spaces given, please briefly describe your reasons for applying practices different than on your BMP Enrollment Worksheet.

The BMP Farm Operator must complete and sign the Schedule BMP. If the farm is located within an irrigation district that files your Annual Water Withdrawal And Use Report on your behalf, you may submit the Schedule BMP to ADWR or to the district. The district will include the Schedule BMP with the rest of your annual report.

Please contact your local Active Management Area if you need assistance completing this form.
