STATEMENT OF William Thomason

I have been in the Navajo country since 1922, my first work was with the bureau of Animal Industry, which took me over a large part of the Leupp, Keams Canyon and Western Navajo Jurisdictions. During the seven years I have been in close touch with stock and range conditions; the range as a whole is over stocked and there has been a loss of stock almost every winter for lack of water and range; scarcity of water is the cause of most of the losses.
