Navajo Agency

Charles, E, Burton, Supt &c Fort Defiance Arizona, Mar, 10, 1900

Keams Canon A, T,

Sir

The bearer Wol Ja he Nez, makes complaint that the Moqui Indians are giving him trouble and trying to drive him from his place where he has lived for over thirty years, that they are now cutting timber and piling up rock near his house and have ordered him to move from there I do not know whether he is on the Moqui reservation or not however I have been informed that the Department has sanctioned the action of the Navajos being on the Moqui reserve to a certain limit I have understood within 15 miles of the Moqui Villages, although I do not find any record of that in my office however I wish you would advise the Moqui to abandon the work they have begun until we can investigate and have the matter adjusted, he thinks he is three miles from the Moqui line off their reserve,

Very Respectfully,

G W Hazlett

U.S. Indian Agent
