Hon. Commissioner of Indian Affairs
Washington
D. C.

Sir:-

Replying to your letter of the 9th instant, "E 23915-1890. On the enclosed map I mark the land surrounding the Moqui villages which I think should be surveyed. None of it is irrigable. It is all good farming land, and does not need irrigation. I do not believe a competent surveyor can be employed to do the work for less than $125.00 per month. The chain work can be done by Indians, and at no expense to the government. Mr. Pratt, of Laguna, N. M., who is a competent engineer, informs me that he will perform any kind of surveying required on the reservation at the compensation named.

Respy. your Ob. Servant
