Hon T J Morgan
Comr Indian Affairs
Washington DC

Sir:

I have the honor to report that the work of allotment has and is progressing satisfactorily. the past four weeks. I have been exceedingly busy as the opportunity now offers itself to make the allotments satisfactory to the Indians as they and their families are all off the Mesas and in their corn fields Melon and bean patches watching the same to keep off stock and crows from eating their melons & corn. I am in the field allotting with the Surveyor from early morning till late in the evening

REPRODUCED AT THE NATIONAL ARCHIVES

so as to embrace the present opportunity of giving them the choice pieces of lands while they are down watching their crops.

I hope to be so far ahead with the two first Mesas so as to reach Oraibi early October,

Will write a more extended and detailed report next week

Yours Respectfully
John S Mayhugh
