Moqui 341

MAY 29 1914

Mr. Leo Crane,

Superintendent Moqui School.

Sir:

The Office is in receipt of your letter of May 19, 1914, with which was transmitted a letter addressed to you by William A. Moody, Commissioner State Land Commission, requesting information as to the water situation on the Moqui reservation.

In response you are advised that the Office knows of no objection to furnishing Mr. Moody with the information he requests, should it be available. This will not imply any jurisdiction by the State over the waters of the reservation, as the same has not been opened to settlement, and the waters are no more than are needed for the irrigation of the reservation lands.

Respectfully,

(Signed) E. B. Meritt
Assistant Commissioner.
