Dear Sir:-

Two years ago, Sept 1930 Mr H H Fisk of your Interior department sent us a note by a Navajo Indian, Marcus Kanako. ordering us out of our established ranch house, at Comar springs within the Hopi Indian Reservation

On May 21. 1920 we built the ranch house there at Comar springs, at that time there were few windmills within the reservation, and in time of draught we depend upon those main springs as our watering places.

We, Naha Bros are the largest cattle owners within the Hopi reservation, our stock run around 600 head and for that reason we were always in need of more water

Now that the Hopi-Navajo Boundry question is being settled and that our good Government has done all it can do for us Indians, I humbly ask that this property be repossessed by us. The Navajos living next to us have their house torn down by the wind and rain and they have never tried to repair it.

The good Government has taught me to stand for my rights in personal and property rights therefore I humbly ask that heed be given my letter and answered by or before April 4. 1933. We are holding a Navajo-Hopi meeting on that day

I remain Sir
Yours Truly
King A. Naha.
