United States Indian Service,

Navajo Agency, N.M.

August 18, 1890

Hon. Commissioner of Indian Affairs
Washington
D. C.

Sir:

Replying to your letter of the 9th instant, "E 23915 1890." On the enclosed map I mark the land surrounding the Moqui villages which I think should be surveyed. None of it is irrigable. It is all good grazing land, and does not need irrigation. I do not believe a competent surveyor can be employed to do the work for less than $75.00 per month. The chaining work can be done by Indians, and at no expense to the Government. Mr. Pratt, of Farmington, N.M., who is a competent engineer, informs me that he will perform any kind of surveying required on the reservation at the compensation named.

Respy. your obt. Servant
L. E. Sanderson
