- B. Total decreed and appropriative surface water delivered within the district for both irrigation and non-irrigation uses: \_\_\_\_\_ Ac ft.

## SCHEDULE D1S INSTRUCTIONS

In addition to reporting withdrawals from all service area wells, irrigation districts are required to report the following information for calendar year 2012. This information is required under provisions of the Groundwater Code and Third Management Plan.

### **I. DELIVERIES BY CATEGORY**

Please indicate the total quantity of water delivered in each of the following categories in the corresponding blank in the table on the reverse side.

- A. Non-exempt Irrigation Grandfathered Rights - include all water delivered to Irrigation Grandfathered Rights that have not been exempted by A.R.S. § 45-563.02, also known as the Small Rights Bill. This total should come from the pre-printed Schedule D, D2S, D3S, or an alternative format generated by the district and approved in advance by the Department. In either case, the grandfathered right number, customer account number, and amount and type of each category of water delivered should be reported for each right.
- B. Exempt Irrigation Grandfathered Rights - include an estimate of each category of water delivered to those Irrigation Grandfathered Rights that had been granted the exempt status by the Department pursuant to A.R.S. § 45-563.02 as of December 31, 2012.
- C. Municipal Providers - include all water delivered to Municipal Water Providers. This total should come from Schedule D4S or an alternative format generated by the district and approved in advance by the Department. In either case, the provider number, customer account number, and amount and type of each category of water delivered should be reported for each provider.
- D. Non-Irrigation- include all water delivered to Non-Irrigation Grandfathered Rights and holders of Individual User Permits. This total should come from Schedule D5S or an alternative format generated by the district and approved in advance by the Department. In either case, the grandfathered right or individual user number, customer account number and amount and type of each category of water delivered should be reported.
- E. Untreated Water Deliveries - Include all water delivered through a distribution system separate from the potable system for use on urban landscape. This total should come from the Schedule U.

### **II. FLEXIBILITY ACCOUNT INFORMATION**

The information requested on the reverse side is required for the proper calculation of the flexibility account balances of non-exempt irrigation grandfathered rights. Please do not include normal flow, spill, CAP, effluent or tailwater in the total decreed and appropriate surface water total.
