POST SIGNAL OFFICE
FORT HUACHUCA, ARIZONA

28 January 1953

Colonel A. B. Cooper, Sig C
Signal Officer, Sixth Army
Presidio of San Francisco, California

Dear Colonel Cooper:

Either this afternoon or tomorrow morning we will have all the data concerning Huachuca, on the way to you. This will consist of:

a. Basic information maps for master planning - 2 copies

b. Real estate map, Fort Huachuca - 2 copies

c. Analysis existing facilities, Fort Huachuca '52/'53 - 2 copies

d. Index sheet to detail sets of plan and building use maps - 1 copy

Mailing will be accomplished as follows:

a. One copy of each in one package (a,b and c)

b. One copy of each in one package (a,b and c)

c. One copy as a separate item (d)

On Thursday or Friday we will forward two (2) copies of aerial photos showing the Post, including the two (2) air strips and two (2) maps on which I've used the red pencil to some extent. The arrows near the two air strips indicate the wind direction when and if we have wind. The area west of the reservation, including the flats as well as the mountains can be had for manuevers with very little effort.

In another package I'm sending some additional maps that were used in briefings which may be of some value. In case additional copies are desired, I'm sure we can have them in your hands in a very short time. The same applies to any other items you may want. No doubt, there will be many questions unanswered even though we have tried to present a complete picture. Since our relations with all the sections are extremely good, I feel we are in a position to provide detail answers where required.

Colonel David M. Dunne, Post Commander, is aware I am sending you considerable data conderning the post and I have his full concurrence to handle it on an informal basis. Should there be any hold up, I feel sure he would assist when and where required.

Sincerely,

CHARLES S. BREEDING
Lt. Colonel, Signal Corps
