Re: Application No. T-230, Change Point of Diversion,
San Pedro River - Glenn/McCaldin

Dear Mr. Winkler:

The material pertinent to an old recorded water right on the San Pedro River filed by William E. Glenn, et ux, and the McCaldins, Roy O., Dean W., and James O. has been made of record in the Water Division and given the designated reference number of O-173.

With regard to the Application for a Permit to Change Point of Diversion of Appropriated Waters of the State of Arizona filed by the Glenns and McCaldins we find, upon examination, that there are several points requiring additional information as follows:

Please put a date on the abandonment of the original point of diversion and to the sabsequent change to a pump and sump.

It is noted that in Item 7 of the subject application, you have altered the language so that it reads, " The water <u>was</u> being used for irrigating 40 to 50 acres of land located in NW¼ of SW¼, Section 18, Township 21 South, Range 22 East and the NE¼ of SE¼ of Section 13, Township 21 South, Range 21 East, Cochise County, Arizona and the water will continue to be used on the same land after changing the point of diversion, but is not now being used pending approval of the application. When was the last use?

In this accord, the Affidavit submitted makes no mention of continuous beneficial use. Please give history of use.

Yours very truly,

F. C. Ryan, Supervisor
Water Division k
