AZ DEPT OF WATER RESOURCES

7-9-15

TO WHOM IT MAY CONCERN:

I ERNESTO ARMENTA AM WRITEING ON BEHALF OF THE IRRIGATION NON-EXPANSION AREA SAN SIMON VALLEY SUB-BASIN.

IF THE TREE/NUT FARMES DON'T WANT ANY NEW TREE FARMES TO GROW IN THIS AREA - THEN THE FARMERS SHOULD NOT PLANT ANY MORE TREE'S IN THE AREA, SO WE MAY CONSERV THE UNDERGROUND WATER.

NOW PROPERTY OWNERS SHOULD BE ALLOWED TO PLANT 10 TREE OF THEIR CHOICE PER ACRE FOR THE PURPOSE OF SHADE, WINDBREAK, AND LANDSCAPEING,

IN THE CASE OF BUG INFESTATION, FIRE OR NATURAL DIASTER THE FARMER MAY REPLACE THE TREES DAMAGED, BUT NOT TO EXCEED THE NUMBER OF TREE ALREADY PLANTED, THIS WAY THERE WILL BE PLENTY OF UNDERGROUND WATER FOR EVERYONE TO LAST FOR THE FUTURE.
