MEMORANDUM TO SUPERINTENDENTS IN THE SOUTHWEST DISTRICT:

It frequently becomes necessary for this office to know the amount of Emergency Conservation Work funds received by the various agencies, and it also is frequently necessary to know the unexpended balance of these funds. That information in this office at this time would be especially convenient in order to allocate a quarter of a million dollars to those agencies which are most in need of it.

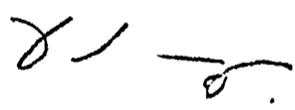

In view of this, I wish to ask that each agency report to this office as near to the close of each month as possible their unexpended Emergency Conservation Work balance and their total appropriations to date for Emergency Conservation Work.

WM. H. ZEH
