Mr. T. L. Heggie
Section of Planning
Soil Conservation Service
Window Rock, Arizona

Dear Mr. Heggie:

Transmitted herewith is the Land Planning report of Land Management Unit Number One. An attempt was made in the preparation of material herein to include all the basic data from the field surveys by the various branches in more or less abbreviated form. If some phases are stressed more than others, the author of this report assumes full responsibility.

At the present time, maps are not available and will probably not be available for some time. If, during this period of time, this report could be read and corrections or suggestions indicated by the various members of the Planning Board, such corrections and suggestions could be incorporated in the report and a correct copy be prepared when maps are available.

If there are any questions in regard to this report, I shall be pleased to offer what information I can.

Very truly yours,

D. G. Anderson

D. G. Anderson,
Chief of Party
