Window Rock, Arizona  
April 13, 1938

*File  
Wright 3*

Memorandum to: Mr. C. W. Wright.

Referring to CCC-ID memo. of April 4  
signed by Powers to yourself.

Referring to the last paragraph please  
be advised we feel that inasmuch as these ditches  
were placed in the Tuba City-Kayenta road after  
the construction of the road that it is the Irriga-  
tion that should furnish the culverts.

It has always been my understanding that  
where a road has been built all improvements made  
afterwards in which the road may become involved,  
is stood by the ones making the improvements. In  
this case the making of the irrigation ditches  
crossing the road should be paid for by Irrigation.  
On the other hand, had the ditches been there prior  
the Roads would have had to stand the expense of  
the culverts.

Frank E. Barlow,  
Road Engineer.

cc - Mr. Firman H. Brown ✓  
Mr. C. H. Powers.
