June 10, 1925

Mr. Harvey K. Meyer,  
Tuba City, Arizona

My dear Mr. Meyer:-

I desire very much to have a few pictures taken of the work that we just did at the head of the canal that would show the concrete lining. Mr. Cobb did not have a camera and I am writing to you to see whether you can get me a few taken that I might have them before the end of June. If you or any of the employees have a camera and would expose a roll I would be glad to send back a roll and attend to the developing and printing here. I need three copies of each picture for the report.

Thanking you, I am

Yours very truly,

HFR/JL
