MEMORANDUM TO MR. E. G. STOCKS,
STOCKMAN IN CHARGE.

Information is desired relative to livestock owned and grazed by Indians south of the extension boundary of the reservation in townships, 19, 20, & 21 N. Range 28, 29, 30, & 31 E. G. & S.R.M. Arizona.

I would appreciate it if you could arrange to get the necessary information which would show as nearly accurate as possible the number of livestock owned and grazed by the Indians in this area and record the same on the enclosed blanks.

We would also like any tax receipts indicating that Indians have paid taxes to any county within the states of Arizona or New Mexico and whether such taxes were paid for livestock or land. If we can collect some of these receipts we will keep them in our official files here as the indications now are that we will need such information relative to the establishing of an equity to the use of land previously grazed by Indians south of the reservation.

V. D. Smith,
Forest Supervisor.
