Albuquerque, N.M.

Mr. G. S. Quate,  
Tuba City, Arizona.

Dear Mr. Quate:

Reference is made to your letter of March 16 relative to the Pasture Canyon job. I have discussed this project somewhat with Mr. Hamilton and also Mr. Calkins and while I believe we are very much interested in the wind erosion project, yet I can hardly see any justification for the draining of the swamp as an Erosion Service Project. I expect to be out in the field in the near future and hope to discuss this matter further with you at that time.

I am glad to hear that the trainees are working out satisfactorily, and I might say that the working plans at Chilchinbito and Kayenta are being traced and prints will be furnished you in the very near future. We should secure as soon as possible working plans covering the north side of the Tesgi River at Kayenta.

Yours very truly,

F. D. Matthews,  
Asst. Regional Director.

FDM-H.
