Assistant Director
U. S. Indian Irrigation Service
Denver, Colorado

Dear Mr. Clotts:

This is in reference to your letter of September 19, 1932 requesting a revised list of water developments on the Navajo and Hopi Reservations.

Previous figures were furnished from year to year without a complete recheck with Mr. Womack's figures and no doubt some discrepancies crept in due to this fact. We have now made a complete recheck of all developments and ask that previous figures be disregarded and the enclosed list be accepted as correct and used hereafter as a basis, and further developments added as they are reported.

Very truly,

C. A. Burns
Acting Supervising Engineer
