Re: App.Pur. No. 923

Dear Frank:

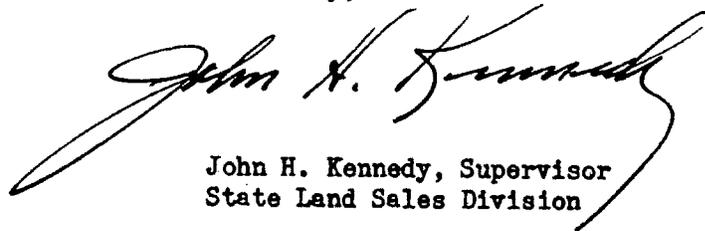

With reference to our telephone conversation, please find enclosed forms for your use in covering the additional improvements that are not of record with the Leasing Division in this Department.

We are also enclosing verifaxed copies of the reports of improvements that we have found to be of record with your right-of-way lease (R/W 873). However, we feel that you should be advised that there are improvements, such as the laterals, that cannot be allowed as reimburseable improvements on the land that we are considering for sale.

We would appreciate your advising as to the improvements, and their value, that are located on the land we are considering for sale.

Thank you for your fine cooperation in this matter.

Sincerely,

John H. Kennedy, Supervisor  
State Land Sales Division
