 - Light-duty road, hard or improved surface
 - Street or other road
 - Trail
 - Interstate Route
 - U.S. Route
 - State Route

NOTE TO MAP USERS

The surface and minerals management status overlays are published as general planning and management tools. Some of the lands, surface and mineral rights, may have been shown as patented lands due to the lack of information available to BLM with respect to the nature of acquisition. Tracts less than 40 acres are usually omitted because of the map scale. Access through private lands may be restricted. The official land records in the respective offices of the Bureau of Land Management or other responsible Federal agencies should be checked for up-to-date status on any specific tract of land. Inquiries in the BLM maps should be reported to the respective Bureau of Land Management offices from which the maps were obtained.
