FROM EWD

DATE 12 July 1956 COMMENT NR 4
Capt Prince/dw/4852

1. Area referred to as "Old Artillery Range" has been made available to TPO for use by the Technical Departments for conduct of their various tasks. At present, area bounded by coordinates 672935, 646994, 744041, and 744976 has been made available to this Department as Impact Area (Danger Area). Certain gun positions, Fire Direction Center, equipment shelter have been established in this range area, as indicated in pencil on incl 1. However all positions are subject to change and no permanent construction has yet been initiated regarding EWD requirements.

2. Detailed plans for proposal construction to include justification has been submitted to Chief Scientist, TPO as EWD requirements for Ten Year Instrumentation Plan. This plan calls for extensive construction by private contractor for all the Technical Departments. Recommend that coordination of the "Instrumentation Plan" be accomplished at TPO level.
