

2013 ANNUAL REPORT WORKSHOP

March 10, 2014

Webinar Participants

- Please remember to put your phone on **MUTE**
- If you place us on HOLD, your music will interfere with this meeting, please hang up and rejoin once you are done with your call

Thank you!

Large Municipal Provider Annual Report Process

Municipal (56) Report Highlights:

- Schedule A
- Schedule E
- Schedule D
- Schedule F-1, Part 3
- Schedule F-2
- Schedule G-2
- Schedule AWS
- Notes

Schedule A:

ARIZONA DEPARTMENT OF WATER RESOURCES

SCHEDULE A

REPORT OF PUMPING

ANNUAL REPORT 2013

Owner

1 RIGHT/PERMIT/BMP Farm Unit NO.

Note: Pumpage for each well must be shown on the attached well worksheets.
Information for up to four wells may be shown on each worksheet.

2 DWR WELL REGISTRATION NO.				3 Depth to Static Water Level (Designated Providers Only)			4 Ground-water Pumped	RECOVERED WATER PUMPED				9 Total Water Pumped
10 Q	40 Q	160 Q	LOCATION	Date # 1	Msmt # 1	Well Running? (Y/N)		5 CAP	6 SW	7 EFF/ N	8 EFF/ OUT	
Q	Q	Q	SEC TWN RNG	Date # 2	Msmt # 2							
TOTAL WATER WITHDRAWN (acre-feet)							10*					11**

* ENTER TOTAL ACRE-FEET OF GROUNDWATER WITHDRAWN IN PART I OF THE SUMMARY PAGE.

** ENTER ACRE-FEET OF TOTAL WATER PUMPED IN PART IV D. 1 OF THE SCHEDULE AWS.

Schedule A - Contents:

- List ALL wells you operate on **Schedule A**, including:
 - Service area wells that you own and operate
 - SRP direct connect wells

Including those that withdraw:

- Groundwater
- Any annual recovery or long term storage credits
- Recovered reclaimed water, even if it is directly entering your reclaimed system

Schedule A - Grouping:

- It's ok if you want to group your wells into categories by, for example:
 - Wells you own
 - SRP direct connect wells
 - Wells that recover reclaimed water that goes into your reclaimed system (and is not used for potable use)
 - All other wells you operate
- If you do group your wells, please note the category of the grouping on the form

Schedule A - Notes:

- Include Worksheets (W-1, W-2, etc.) for ALL wells
 - Note: If you use SCADA and have a SCADA agreement with ADWR, then you are not required to submit worksheets for SCADA wells. SCADA wells should still be listed on your **Schedule A**.
- Any recovered water listed on your **Schedule A** must match your **Schedule 74**, both for water source and volume

Schedule A - Amendments:

- If you **amend** Schedule A, then your **Schedule 74** must also be amended
- If you amend **Schedule A AND** you are an MSA with the CAGR, then your CAGR report **ALSO** must be amended

Schedule E - Incorrect:

SCHEDULE E Part A -- All Users

ARIZONA DEPARTMENT OF WATER RESOURCES

~~Do not include any water sent directly to a storage facility on a municipal provider's behalf in Part A. Report water sent directly to storage facility on Part B.~~

Owner

WATER RECEIVED FROM OTHER SOURCES

RIGHT/PERMIT/BMP Farm Unit NO.

ANNUAL REPORT 2013

Part I -- Water Received from Primary Irrigation Districts / Municipal Providers

Irrigation District / Provider Number Your District User/ Account Number
 Provider/District Name Number of acres eligible to receive surface water

Water Storage Permit if applicable (enter 73-xxx-xxx-xxx)	Measurement Method	Acre-feet Received by Water Type								Total Received
		Groundwater	In-lieu Groundwater	Decreed/ Appropriate	Normal Flow	Spillwater	CAP	Other	(Describe Other water)	
Part I Total Acre-feet Received										

Part II -- Water Received or Diverted from Sources Other Than Irrigation Districts / Municipal Providers

Right / Permit Number Supplying Water	Measurement Method	Acre-feet Received by Water Type								Total Received
		Groundwater	Decreed/ Appropriate	Normal Flow	Spillwater	CAP	Other	(Describe Other water)		
Part II Total Acre-feet Received										

PART III - Water Received Pursuant to a Permitted or Enrolled Exchange Agreement

Exchange No. Supplying Water	Measurement Method	Exchange outside service area?	Payback for			Acre-feet Received in Exchange by Water Type					Total Received
			Quantity	Type	Year Given	GW	SRP	CAP	Effluent	Other SW	
67-											
68-											
69-											

Part III Total Acre-feet Received in Exchange

Sch. E Part A Total acre-feet of Water Received or Diverted from Other Sources (Part I + Part II + Part III)
 Enter Total on Part III of the Summary Page Part III

Schedule E - Correct:

SCHEDULE E Part A -- All Users

ARIZONA DEPARTMENT OF WATER RESOURCES

~~Do not include any water sent directly to a storage facility on a municipal provider's behalf in Part A. Report water sent directly to storage facility on Part B.~~

Owner

WATER RECEIVED FROM OTHER SOURCES

Part III Total Acre-feet Received in Exchange

Sch. E Part A Total acre-feet of Water Received or Diverted from Other Sources (Part I + Part II + Part III)

Enter Total on Part III of the Summary Page Part III

Schedule E – Part I:

- Water received from primary irrigation districts or municipal providers (57, 56)
 - Water volumes you receive from SRP must match SRP's D-4S form
 - Water from SRP direct connect wells appears on SRP's D-4S form, however, pumpage from direct connect wells can show up under either the groundwater column or the Decreed and Appropriative (DCAP) column
 - If you recovered other types of water from SRP direct connect wells, those will show up under the other columns listed on SRP's D-4S

SRP D-4S Form:

2012 WATER DELIVERED - SCHEDULE D-4S

Schedule E – Part II:

- Water received or diverted from sources other than primary irrigation districts or municipal providers
 - CAP water
 - Report all CAP water that you received from CAWCD, including:
 - M&I subcontract volume
 - Any leased CAP
 - Other types of CAP or Colorado River Water
 - Any excess CAP water that you took in during the year
 - Report CAP water that you delivered to be stored, even if you didn't recover that water during the year.

CAWCD Delivery Report:

CENTRAL ARIZONA PROJECT WATER DELIVERIES

(Deliveries are actuals through December. Monthly projections for the remainder of the year are not shown.)

Revised: 2/04/13

Schedule E – Part II, continued:

- Water received or diverted from sources other than primary irrigation districts or municipal providers
 - Water other than CAP water
 - Include water that you received from other districts, if that water is not included by SRP on their D-4S.
 - Include any other water that you “moved” during the year that did not come from your primary irrigation district.
 - List the sum total volume by source (CAP, surface water, effluent, etc.) of water you recovered during the year.

In summary - ALL other water you received EXCEPT water from your primary irrigation district and exchange water should appear on **Schedule E, Part II.**

Schedule E – Part III:

- Water received pursuant to a permitted or enrolled exchange agreement
 - If you have an exchange, the amount of water you enter as being received must match the annual report of the person who “sent” you the exchange water.
 - If SRP reports that they “gave” you 500 acre-feet of SRP exchange water, then on your **Schedule E, Part III**, you show 500 acre-feet SW received.
 - Water YOU gave in the exchange should show up on your **Schedule D**.

Schedule E – Part III, continued:

- Water received pursuant to a permitted or enrolled exchange agreement
 - If you have more than one exchange (the SRP-RID-Phoenix 3-way exchange, or the GRIC exchanges), you need to list your other exchanges on **Schedule E, Part III** as well.
 - If the exchange water actually physically leaves your service area (as opposed to SRP on-project/off-project) it's helpful if you note that for us.
 - For example: for GRIC exchange effluent given (on your **Schedule D**) you could add *“Note: this water is physically delivered to the GRIC and in exchange we physically take CAP water from the GRIC into our potable system.”*

Schedule E – Part III, continued:

- Water received pursuant to a permitted or enrolled exchange agreement
 - Please do **NOT** attempt to calculate your exchange nor should you report the water **AFTER** the exchange calculation.
 - Please **report** the type and volume of “**wet water**” you receive and ADWR will do the exchange calculation **AFTER** we receive your report.

Schedule D:

ENTER BOX 24 IN PART II OF THE SUMMARY PAGE							TOTAL ACRE-FEET DELIVERED AND EXCHANGED	24

Schedule D:

- Include water that you delivered, by source, to other rights (56s, 58s, 57s, 59s, etc.)
- Include water that you delivered to be stored, or that was stored on your behalf, by source, pursuant to each 73 permit number (whether or not you recovered it).
 - These volumes must match your **UWS Schedule (70)**.

Schedule D – exchange water given:

- In the box for exchange water given, show us the exchange water you “gave.”
- If it is an SRP exchange, water given should match SRP’s report for the volume SRP shows they “received” from you.
- List all other exchanges where you “gave” water during the year. If the water you “gave” in exchange physically left your service area, as in the GRIC exchange, it would be helpful to note that as discussed previously in the **Schedule E, Part III** exchange section.

Schedule F-1, Part 3 – DU Effluent

ARIZONA DEPARTMENT OF WATER RESOURCES

SCHEDULE F-1 PART 3

MUNICIPAL PROVIDER DIRECT USE EFFLUENT

ANNUAL REPORT 2013

PROVIDER NAME

RIGHT/PERMIT NO.

Pursuant to the Third Management Plan, municipal water providers are required to supply the following information. Report the amount of effluent produced, received, delivered, reused, recharged or discharged in your service area in calendar year 2013. Please attach a list of all the plants at which wastewater generated by uses of water within your service area is treated. List the volume of effluent produced at each plant from uses of water within your service area during calendar year 2013.

Please include all effluent produced in your service area, even if it is sent to a regional or other wastewater treatment facility not owned or operated by you.

PART 1 - TOTAL AVAILABLE EFFLUENT

A. Effluent Produced from Uses of Water within your Service Area:

1.	Effluent produced within service area (include wastewater processed at all treatment plants/entities)	af
2.	Effluent used as process water at treatment plants	af
3.	Part A.1 - Part A.2 (total effluent produced within service area during CY 2013)	af

B. Additional Effluent Sources:

1.	Effluent received from other water right holders	af
2.	Effluent recovered as long-term storage credits pursuant to a Recovery Well (74) Permit (sum of recovered from all 74s)	af
3.	Part B.1 + Part B.2 (total effluent used during CY 2013 that was not produced within the service area during CY 2013)	af

C. Total Available Effluent:

1.	Total from Part 1.A.3 above + Total from Part 1.B.3 above:	af
----	--	----

PART 2 – TOTAL EFFLUENT USE

A. Effluent Delivered/Used within your Service Area:

1.	Effluent delivered/used within your service area for landscape watering	af
2.	Effluent delivered/used within service area for other purposes (please attach additional sheets and list and describe each use separately)	af
3.	Part 2.A.1 + Part 2.A.2 (total effluent use within your service area during 2013)	af

B. Effluent Delivered to Other Rights/Permits (as shown on your Schedule D form):

1.	Total Effluent delivered to other water rights/permits	af
----	--	----

C. Total Available Effluent:

1.	Effluent delivered to recharge projects as reported on Water Storage Reports (73s)	af
2.	Effluent delivered/used (from Part 2.A) that is recovered annual storage credits:	af
3.	Part 2.C.1 – Part 2.C.2 (total effluent used for storage projects before evaporation or cuts to the aquifer)	af

D. Effluent Delivered to Entities Other than Rights/Permits/Water Storage Uses:

1.	Effluent delivered for additional uses not associated with a right/permit/water storage use	af
----	---	----

Please explain:

PART 3 – TOTAL EFFLUENT DISCHARGED

A. Effluent Discharged:

1.	Total effluent discharged (not recharged, delivered, or used)	af
----	---	----

Please contact your local Active Management Area if you need assistance completing this form.

(602) 771-8585

Schedule F-1, Part 3 – DU Effluent

- **Part 1** – Total Available Effluent

- This part should capture all of your available effluent, including:

- Direct use
- Recovered long term storage credits
- Water generated at your wastewater plant
- Water that you “receive” from a wastewater plant

The sum of all these sources for non-potable uses should show up in Part 1.C.1 as total available effluent.

Schedule F-1, Part 3 – DU Effluent

- **Part 2 – Total Effluent Use**

- This part should capture all the effluent you use that is NOT within your potable system, including:

- Direct reuse for landscape watering or for other purposes (dust control, water features, etc.)
- Effluent delivered to other rights
- Effluent delivered for storage
- Annual recovery

- The sum of the effluent you used under Part 2 and the volume you discharge in Part 3 should equal the total available effluent in Part 1.C.1 in the top section of the form.

Schedule F-2 – Deliveries to Turf Facilities

- Report water that YOU deliver to turf-related facilities that you have asked ADWR to make **Individual Users** (62s).
- Individual Users need to complete their own annual reports and they are responsible for their own compliance with their maximum annual turf allotments.
- If there is a turf facility that you want ADWR to make an Individual User, you can list the facility name on your **Schedule F-2** but you need to follow-up with **Ryan Jackisch** to request that the facility officially be noticed as an individual user.
 - Facilities that have 10 or more acres of turf and/or surface water are eligible to become individual users.

Schedule F-2 – Deliveries to Turf Facilities

- The commingled water category is for water you deliver to the facility via your potable distribution system, when your potable distribution system contains a **mix of more than one supply** (i.e. groundwater, recovered CAP water, and recovered surface water).
- The other columns are for untreated water by the source of supply (groundwater, CAP, other, and effluent).
 - If your potable system is 100% groundwater, you would report water you delivered to the facility under groundwater, regardless of whether it is from your potable system or untreated.

Schedule G-2 – Turf Facilities:

SCHEDULE G-2

TURF-RELATED FACILITIES

ANNUAL REPORT 2013

ARIZONA DEPARTMENT OF WATER RESOURCES

Facility Name: _____

Facility No.: _____

Facility Owner : _____

Contact Name: _____

Contact Address: _____

Contact Phone: _____

Rights Used at Facility:

If you received an annual use letter from an irrigation district or municipal provider, please submit a copy of their letter with your 2013 Annual Water Withdrawal and Use Report to validate deliveries received.

Pursuant to Chapter 6 of the Third Management Plan of your Active Management Area, all turf-related facilities are required to supply the following information. Please complete one form per turf-related facility. Instructions are listed on the reverse side of this form.

PART 1 - TURF RELATED WATER USE

Source	Entity or Water Right Number(s) Supplying Water	Amount (acre-feet)
Groundwater (including in-lieu groundwater)		
Effluent	• Municipal Reclaimed	
	• Other	
Surface Water	• Decreed/Appropriative	
	• Normal Flow	
	• Spillwater	
	• CAP	
Municipal (commingled/potable)		
Recovered water (specify type of water)		
Other (specify)		
SUB-TOTAL OF TURF-RELATED WATER USE		
NON Turf-related water additional sheets may be used	Meter Readings: Beginning: _____ End: _____ Subtract < _____ >	
	Purpose: _____	
TOTAL TURF-RELATED WATER USE		

PART 2 - LANDSCAPED AND WATER SURFACE AREAS CHANGES

Total turf acreage or percent overseeded _____

Has there been any landscape or water surface acreage changes at your facility? YES NO

6-310 Monitoring and Reporting Requirements for Turf-Related Facilities:

An industrial user who uses water at a turf-related facility that commences watering to any new turfed acres, low water use landscaped area or water surface acres after January 1, 2013 shall submit to the director documentation of the new acres no later than 90 days after commencement of providing water to the new acres or receiving notice of these conservation requirements, whichever is later. The scale of the submitted documents, extent of turf acres, water surface acres, and low water use landscaped area must clearly be shown.

Schedule G-2 – Turf Facilities

- If a turf-related facility has not been made an Individual User and they receive water from you, you need to fill out one **Schedule G-2** form for every facility to which you provide water.
- A **Schedule G-2** should only be filled out for those facilities that are not individual users and that have more than 10 acres of turf and/or surface water.
- Non turf-related water use (i.e. restrooms, clubhouses, etc.) may be subtracted from the total amount of water used, but it **MUST** be metered.
- Please include the water right numbers used at each facility. If they are not pre-printed on the form, write them in and we will add them.

ARIZONA DEPARTMENT OF WATER RESOURCES

ASSURED WATER SUPPLY SUPPLEMENT
FOR DESIGNATED PROVIDERS

Designated Provider

Right No.

ANNUAL REPORT 2013

Pursuant to A.R.S. § 45-632 and the Assured & Adequate Water Supply Rules, designated water providers are required to supply the following information. Instructions are listed under each section of this form.

Note: If any information pre-printed on this form is incorrect, please make the needed corrections. For any information not already pre-printed on this form, please follow the directions below. All parts must be completed.

PART 1 - COMMITTED DEMAND

Please provide the estimated future demand in acre-feet for undeveloped, recorded plats that are located in the area as of December 31, 2013. Report demand for residential versus non-residential lots separately.

Number of Residential Lots	Demand per Lot (af/yr)	Total Demand (af/yr)
Number of Non-Residential Parcels	Total Demand (af/yr)	

Explain how the non-residential demand was calculated. Use a separate sheet if necessary.

PART 2 - PROJECTED ANNUAL DEMAND

Project the annual water demand in acre-feet for each year indicated. Calculate the increase in demand each year from the previous year. The projected demand in most cases will be greater than the total water use for the current calendar year. Current year demand should equal the total water deliveries in the service area for 2013 as reported on the Schedule F forms, plus system losses and unaccounted for water. Include all water sources used.

Year	Projected Population	GPCD	Total Production (af/yr)	Increase from Previous Year (af/yr)
2013				
2014				
2015				
2016				
2017				
2018				
2019				
2020				
2021				
2022				

PART 3 - WATER QUALITY

- A. Is the provider currently in compliance with the Arizona Department of Environmental Quality's state water quality standards and reporting requirements? Yes No
- B. Have any new Superfund or WQARF sites been identified within the provider's service area or have existing contaminant plumes migrated to be within one mile of any service area wells? Yes No

Please contact the Office of Assured and Adequate Water Supply if you need assistance completing this form.

(602) 771-8622

Schedule AWS – Page 1:

- **Part 1** – Committed Demand:
 - Estimated future demand for undeveloped, recorded plats
- **Part 2** – Projected Annual Demand:
 - Projected annual demand for current and future years
- The sum of your current, committed, and 2 years of your projected demand will be compared to your Designation volume. If it's close, the Department will contact you to discuss and potentially modify your Designation.

ASSURED WATER SUPPLY SUPPLEMENT
FOR DESIGNATED PROVIDERS

ANNUAL REPORT 2013

PART 4 - TOTAL WATER WITHDRAWN, DIVERTED OR RECEIVED - PHYSICAL AVAILABILITY REQUIREMENT

Please show all sources of water withdrawn, received or diverted in 2013 Refer to Schedule A for the total volume of water withdrawn in 2013. Subtract out deliveries to other rights in the rows indicated below. Water received should match Schedule E. Water delivered should match Schedule D. The total volume of water pumped as reported on Schedule A should match the total water withdrawn on line D.1 in the table below.

The total physically, legally and continuously available supply listed below is provided for your reference:

1. Total water physically, legally and continuously available per designation order	af
---	----

A. CAP Water:

1. CAP received directly (do not include CAP storage credits recovered or CAP stored)	af
2. CAP delivered directly to other rights (do not include individual user deliveries)	af
3. Part 4.A.1 - Part 4.A.2 (total CAP for use within the service area in 2013)	af

B. Surface Water:

1. Surface water received directly (do not include surface water storage credits recovered or surface water stored)	af
2. Surface water delivered directly to other rights (do not include individual user deliveries)	af
3. Part 4.B.1 - Part 4.B.2 (total surface water for use within the service area in 2013)	af

C. Effluent:

1. Effluent received directly (do not include effluent storage credits recovered or effluent stored)	af
2. Effluent delivered directly to other rights (do not include individual user deliveries)	af
3. Part 4.C.1 - Part 4.C.2 (total effluent for use within the service area in 2013)	af

D. Water Withdrawn and Groundwater Received for Use in the Service Area in 2013

1. Total Water Withdrawn (include water storage credits recovered and exchange water)	af
2. Groundwater Received from other rights	af
3. Groundwater delivered to other rights (do not include individual user deliveries)	af
4. Part 4.D.1 + Part 4.D.2 - Part 4.D.3 (total withdrawn water and groundwater received 2013)	af

Note: Pursuant to the Assured and Adequate Water Supply Rules the director shall consider recovered storage credits when determining physical availability of groundwater.

PART 5 - GROUNDWATER WITHDRAWALS - CONSISTENCY WITH GOAL REQUIREMENT

A. Total Groundwater for Use within the Service Area in 2013

1. Total from Part 4.D.4 above	af
2. Water Withdrawn as Recovered Long-Term Storage Credits	af
3. Water Withdrawn as Recovered Annual Storage Credits	af
4. Part 5.A.1 - Part 5.A.2 - Part 5.A.3 (total groundwater for use in 2013)	af

B. Groundwater Exemptions:

1. Total Groundwater from Part 5.A.4 above	af
2. Poor Quality Groundwater Withdrawn *	af
3. Water Logged Groundwater Withdrawn *	af
4. Drought Exemption Groundwater Withdrawn **	af
5. Part 5.B.1 above - sum of Parts 5.B.2 through 5.B.4 above	af
6. Amount from line 5.B.5 above reported to the CAGR as Excess Groundwater	af
7. Part 5.B.5 above - Part 5.B.6 (groundwater subtracted from allowance account) ***	af

* Note: Poor quality groundwater and water logged groundwater must be listed on the designation order to qualify for subtraction here.

** Note: Drought exemption groundwater must be applied for in writing for each year in which the exemption is requested.

*** Note: For information on your groundwater account balance, contact the Office of Assured and Adequate Water Supply.

Please contact the Office of Assured and Adequate Water Supply if you need assistance completing this form.

Schedule AWS

— Page 2:

Schedule AWS – Page 2:

- **Part 4** – Total water withdrawn, diverted or received:
 - All of the information for this section can be found within the rest of the Annual Report and should match exactly
- **Part 5** – Groundwater withdrawals:
 - The information for section 5.A can be found within the rest of the Annual Report and should match exactly
- Your Groundwater Allowance Balance is calculated based on the information you give in Parts 4 and 5. It is **crucial** that the information you provide is accurate.

FINAL NOTES:

- Remember to show **all** water used on **Schedule A**.
- Remember that on **Schedule F-1, Part 3** that you should be accounting for **all reclaimed water** produced **and** how it was **used**.
- **Notes are good!** If you have a situation that is unique or isn't clear, please make a note of it on your annual report.

Contact Information:

- Call us if you have questions, or would like to schedule an individual appointment to walk you through completing your forms! (602) 771-8585

CAGRD

Annual Report

Process

CAGRD MSA Annual Report

- Complete ADWR's Schedule AWS up to 5.B.5. before completing CAGRD's Annual Report
- The amount from Part 5.B.5 of Schedule AWS should match Line 1 on CAGRD's report

Note: If applicable, the Incidental Recharge will be pre-populated with the figure that CAGRD obtains from ADWR each year.

- Complete calculations on CAGRD form
- The amount from Part 5.B.6 of Schedule AWS should match Line 6 & 11 on CAGRD's report

- Long term storage credits can be used to offset all or part of the Replenishment Obligation
- On Line 12, check the "Yes" or "No"
- If "Yes" proceed to CAGRD's Attachment A

B. Groundwater Exemptions:

1. Total Groundwater from Part 5.A.4 above	711 af
2. Poor Quality Groundwater Withdrawn *	0 af
3. Water Logged Groundwater Withdrawn *	0 af
4. Drought Exemption Groundwater Withdrawn **	0 af
5. Part 5.B.1 above - sum of Parts 5.B.2 through 5.B.4 above	711 af
6. Amount from line 5.B.5 above reported to the CAGRD as Excess Groundwater	393.96 af
7. Part 5.B.5 above - Part 5.B.6 (groundwater subtracted from allowance account) ***	317.04 af

* Note: Poor quality groundwater and water logged groundwater must be listed on the designation order to qualify for subtraction here.
 ** Note: Drought exemption groundwater must be applied for in writing for each year in which the exemption is requested.
 *** Note: For information on your groundwater account balance, contact the Office of Assured and Adequate Water Supply.
 Please contact the Office of Assured and Adequate Water Supply if you need assistance completing this form.

Page 2 of 2

EXCESS GROUNDWATER DELIVERED TO MEMBER SERVICE AREA				
1	TOTAL GROUNDWATER WITHDRAWN WITHIN THE MEMBER SERVICE AREA IN 2013* (Must equal the volume reported on Part 5.B.5 of the Assured Water Supply Supplement of the ADWR 2013 Annual Report)	1	711	Acre-ft
2	INCIDENTAL RECHARGE AS AWARDED BY ADWR FOR 2013	2	123	
3	MINIMUM EXCESS GROUNDWATER FACTOR	3	0.67	
4	REQUIRED MINIMUM AMOUNT OF EXCESS GROUNDWATER (Subtract line 2 from line 1 and multiply by line 3, but not less than zero)	4	393.96	Acre-ft
5	ADDITIONAL AMOUNT REPORTED AS EXCESS GROUNDWATER	5	0	Acre-ft
6	TOTAL EXCESS GROUNDWATER (sum of lines 4 and 5, not to exceed line 1) (Must equal the volume reported on Part 5.B.6 of the Assured Water Supply Supplement of the ADWR 2013 Annual Report)	6	393.96	Acre-ft
CONTRACT REPLENISHMENT ACCOUNT ACTIVITY				
7	CONTRACT REPLENISHMENT ACCOUNT BALANCE AS OF JANUARY 1, 2013	7	0	Acre-ft
8	CONTRACT REPLENISHMENT CREDITS ACCRUED IN 2013	8	0	
9	VOLUME OF CONTRACT REPLENISHMENT CREDITS TO BE APPLIED TO REDUCE THE 2013 REPLENISHMENT OBLIGATION	9	0	
10	CARRY FORWARD BALANCE IN THE CONTRACT REPLENISHMENT ACCOUNT (sum of lines 7 and 8 minus line 9)	10	0	
OBLIGATION				
11	2013 CAGRD SERVICE AREA REPLENISHMENT OBLIGATION (subtract line 9 from line 6)	11	393.96	Acre-ft
LONG TERM STORAGE CREDIT				
12	DO YOU PLAN TO USE LONG-TERM STORAGE CREDITS TO OFFSET ALL OR PART OF THE CAGRD REPLENISHMENT TAX? Please mark box below. IF YES, PLEASE COMPLETE THE ATTACHED FORM (ATTACHMENT A)	12		
	Yes <input type="checkbox"/> No <input type="checkbox"/>			

* If the basis for calculating the total groundwater reported on Line 1 is other than by meter, please attach a sheet describing the basis.

Don't forget to sign and date form

Note: Contract Replenishment is greyed out., it only applies to one MSA.

CAGRD - Attachment "A"

Long Term Storage Credit Transfer Request

- Complete Seller Name & Address
- **Complete the Water & Replenishment Component section and:**
 - Double check the Account & Permit numbers
 - Double check the amount of LTSC to Transfer
 - Include type of water

- **Complete the Replenishment Reserve Component section:**

- Annotate "Yes" or "No"
 - This amount is based on a multiplier by AMA; calculated by CAGRD

(based on Replenishment Reserve target)

PHOENIX AMA (602) 771-8585

If any of the information preprinted on this report is incorrect, please make the necessary changes.

PART I WATER RECOVERED

- A) Total volume of water in acre-feet recovered as annual recovery from box 10 of RW - SCHEDULE 74: ACRE - FEET
- B) Total volume of water in acre-feet recovered as Long Term Storage credits from box 11 of RW - SCHEDULE 74: ACRE - FEET
- C) Total volume of water recovered in acre-feet from box 12: ACRE - FEET

Match Sch. A →

PART II LONG TERM STORAGE RECOVERY FEE

Enter volume from Part I.B. above: ACRE - FEET X \$1.00 FEE = \$ TOTAL

PART III LATE FEES

Complete this section if filing after March 31. Note: A portion of a month after March 31 is counted as a full month.

A) Enter number of months late (Maximum of 6) B) Calculate Late Report Fee (\$25.00 X number of months late) \$ C) Calculate Late Payment Fee (Recovery fee calculated in Part II X 10% X number of months late) \$

PART IV TOTAL FEES DUE

Total fees due (Part II + Part III.B + Part III.C): \$

Mail or hand deliver this report, together with the appropriate schedules, worksheets, and fees to the Arizona Department of Water Resources. If mailed, the report must be postmarked no later than March 31, 2014. If hand delivered, the report must be received by the Department's Annual Reports & Planning Section no later than 5:00 PM on March 31, 2014.

REPORTS FILED AFTER MARCH 31, 2014 ARE SUBJECT TO LATE FEES [ARS § 45-875.01(E)].

I hereby certify, under penalty of perjury, that the information contained in this report is, to the best of my knowledge and belief, true, correct and complete.

 AUTHORIZED SIGNATURE TITLE DATE

 PRINTED NAME TELEPHONE NUMBER

NOTE: THIS REPORT MUST BE FILED EVEN IF NO WATER WAS RECOVERED PURSUANT TO THE PERMIT.

RW Summary:

- One pre-printed report for each RW Permit (74-) must be submitted
- Part I Water Recovered:
 - A. Report the total volume of water recovered in the same year it was stored (annual recovery)
 - B. Report the total volume of water recovered as long term storage credits
 - This type of recovery requires a fee - \$1.00 per acre-foot recovered (see Part II).
 - C. Total Volume Recovered – add A plus B. This amount should match **Schedule A**, recovered water pumped.

You must list the water storage permit number(s) under which the recovered water was stored.

Pre-printed well #s associated with RW Permit.

12 Match Sch. A

RW Schedule 74:

- When completing the **Schedule 74**, all of the columns are important
- **Column 1** – all the wells associated with that recovery well permit should be pre-printed for you
- **Column 2** – list the water storage permit number(s) under which the recovered water was stored
- **Column 3** – note whether the facility where the water was stored is a USF or GSF
- **Column 4** – note whether the well is a multiple use well

RW Schedule 74 (continued):

- **Column 5** – Note whether the well is located within 1 mile of the facility where the water was stored
- **Column 6** – Annual Recovery – enter the volume of water recovered by type
- **Column 7** – Long Term Storage Recovery – enter the volume of water recovered by type
- **Column 8** – Total it up!!
- The annual and long term recovery volumes must match the volumes listed as “Recovered Water Pumped” on **Schedule A** of your Municipal Provider Annual Report (56-)

FINAL NOTES:

- Use pre-printed forms.
 - Pre-Printed forms are available on our website: www.azwater.gov
Click on “Permits/Reporting” Tab, then “Online Annual Reporting”
- Supplemental data reports – read your permit for monitoring reporting requirements.
 - We recommend calculating your total volume of storage before entering it on your UWS form.
- Volumes entered on UWS Schedule should be prior to losses.
- Call us if you have questions, or would like to schedule an individual appointment to walk you through completing your forms! (602) 771-8599
