

ARIZONA WATER ATLAS

VOLUME 7

LOWER COLORADO RIVER PLANNING AREA

ACKNOWLEDGEMENTS

Herbert Guenther

Director, Arizona Department of Water Resources

Karen Smith

Deputy Director, Arizona Department of Water Resources

Tom Carr

Assistant Director, Statewide Water Conservation and Strategic Planning

Sandra Fabritz-Whitney

Assistant Director, Water Management

Atlas Team

Linda Stitzer, Rich Burtell – Project Managers

Phyllis Andrews

Carol Birks

Kelly Mott Lacroix

Joe Stuart

Major Contributors

John Fortune

Leslie Graser

William H. Remick

Saeid Tadayon-USGS

Other Contributors

Matt Beversdorf

Patrick Brand

Roberto Chavez

Jenna Gillis

Laura Grignano (Volume 8)

Pam Nagel (Volume 8)

Mark Preszler

Kenneth Seasholes (Volume 8)

Jeff Tannler (Volume 8)

Larri Tearman

Dianne Yunker

Climate

Gregg Garfin - CLIMAS, University of Arizona

Ben Crawford - CLIMAS, University of Arizona

Casey Thornbrugh - CLIMAS, University of Arizona

Michael Crimmins – Department of Soil, Water and Environmental
Science, University of Arizona

The Atlas is wide in scope and it is not possible to mention all those who helped at some time in its production, both inside and outside the Department. Our sincere thanks to those who willingly provided data and information, editorial review, production support and other help during this multi-year project.

Special note about the Atlas Team

Completion of the Atlas would not have been possible without the dedicated professionals that compose the Atlas Team. Most have been involved with the project from its inception in 2003 and their contributions to the success of the project cannot be overstated.

CONTENTS

PREFACE	1
SECTION 7.0	
Overview of the Lower Colorado River Planning Area	1
7.0.1 Geography	3
7.0.2 Hydrology	5
Groundwater Hydrology	5
Surface Water Hydrology	14
7.0.3 Climate	19
7.0.4 Environmental Conditions	21
Vegetation	22
Arizona Water Protection Fund Programs	26
Threatened and Endangered Species	26
National Monuments, Wildlife Refuges and Wilderness Areas	28
Managed Waters	31
7.0.5 Population	32
Population Growth and Water Use	32
7.0.6 Water Supply	35
Colorado River Water	35
Central Arizona Project Water	41
Surface Water	42
Groundwater	45
Effluent	47
Contamination Sites	47
7.0.7 Cultural Water Demand	48
Tribal Water Demand	51
Municipal Demand	53
Agricultural Demand	59
Industrial Demand	68
7.0.8 Water Resource Issues in the Lower Colorado River Planning Area	70
Colorado River Issues	70
Groundwater Transportation	72
Planning and Conservation	73
Issue Surveys	73
7.0.9 Groundwater Basin Water Resource Characteristics	74
REFERENCES	78
SECTION 7.1	
Water Resource Characteristics of the Butler Valley Basin	87
7.1.1 Geography of the Butler Valley Basin	88
7.1.2 Land Ownership in the Butler Valley Basin	90
7.1.3 Climate of the Butler Valley Basin	92
7.1.4 Surface Water Conditions in the Butler Valley Basin	94
7.1.5 Perennial/Intermittent Streams and Springs	96

7.1.6	Groundwater Conditions of the Butler Valley Basin	97
7.1.7	Water Quality of the Butler Valley Basin	102
7.1.8	Cultural Water Demands in the Butler Valley Basin	104
7.1.9	Water Adequacy Determinations in the Butler Valley Basin	107
	References and Supplemental Reading	109
SECTION 7.2		
Water Resource Characteristics of the Gila Bend Basin		111
7.2.1	Geography of the Gila Bend Basin	112
7.2.2	Land Ownership in the Gila Bend Basin	114
7.2.3	Climate of the Gila Bend Basin	116
7.2.4	Surface Water Conditions in the Gila Bend Basin	119
7.2.5	Perennial/Intermittent Streams and Major Springs in the Gila Bend Basin	124
7.2.6	Groundwater Conditions of the Gila Bend Basin	126
7.2.7	Water Quality of the Gila Bend Basin	132
7.2.8	Cultural Water Demands in the Gila Bend Basin	137
7.2.9	Water Adequacy Determinations in the Gila Bend Basin	141
	References and Supplemental Reading	144
SECTION 7.3		
Water Resource Characteristics of the Harquahala Basin		147
7.3.1	Geography of the Harquahala Basin	148
7.3.2	Land Ownership in the Harquahala Basin	150
7.3.3	Climate of the Harquahala Basin	152
7.3.4	Surface Water Conditions in the Harquahala Basin	155
7.3.5	Perennial/Intermittent Streams and Major Springs in the Harquahala Basin	158
7.3.6	Groundwater Conditions of the Harquahala Basin	159
7.3.7	Water Quality of the Harquahala Basin	168
7.3.8	Cultural Water Demands in the Harquahala Basin	172
7.3.9	Water Adequacy Determinations in the Harquahala Basin	175
	References and Supplemental Reading	178
SECTION 7.4		
Water Resource Characteristics of the Lower Gila Basin		181
7.4.1	Geography of the Lower Gila Basin	182
7.4.2	Land Ownership in the Lower Gila Basin	184
7.4.3	Climate of the Lower Gila Basin	187
7.4.4	Surface Water Conditions in the Lower Gila Basin	190
7.4.5	Perennial/Intermittent Streams and Major Springs in the Lower Gila Basin	195
7.4.5	Groundwater Conditions of the Lower Gila Basin	196
7.4.7	Water Quality of the Lower Gila Basin	206
7.4.8	Cultural Water Demands in the Lower Gila Basin	213

7.4.9	Water Adequacy Determinations in the Lower Gila Basin	218
	References and Supplemental Reading	221
SECTION 7.5		
Water Resource Characteristics of the McMullen Valley Basin		225
7.5.1	Geography of the McMullen Valley Basin	226
7.5.2	Land Ownership in the McMullen Valley Basin	228
7.5.3	Climate of the McMullen Valley Basin	230
7.5.4	Surface Water Conditions in the McMullen Valley Basin	233
7.5.5	Perennial/Intermittent Streams and Major Springs in the McMullen Valley Basin	236
7.5.6	Groundwater Conditions of the McMullen Valley Basin	237
7.5.7	Water Quality of the McMullen Valley Basin	245
7.5.8	Cultural Water Demands in the McMullen Valley Basin	249
7.5.9	Water Adequacy Determinations in the McMullen Valley Basin	253
	References and Supplemental Reading	256
SECTION 7.6		
Water Resource Characteristics of the Parker Basin		259
7.6.1	Geography of the Parker Basin	260
7.6.2	Land Ownership in the Parker Basin	262
7.6.3	Climate of the Parker Basin	265
7.6.4	Surface Water Conditions in the Parker Basin	268
7.6.5	Perennial/Intermittent Streams and Major Springs in the Parker Basin	272
7.6.6	Groundwater Conditions of the Parker Basin	274
7.6.7	Water Quality of the Parker Basin	280
7.6.8	Cultural Water Demands in the Parker Basin	284
7.6.9	Water Adequacy Determinations in the Parker Basin	288
	References and Supplemental Reading	292
SECTION 7.7		
Water Resource Characteristics of the Ranegras Plain Basin		297
7.7.1	Geography of the Ranegras Plain Basin	298
7.7.2	Land Ownership in the Ranegras Plain Basin	300
7.7.3	Climate of the Ranegras Plain Basin	302
7.7.4	Surface Water Conditions in the Ranegras Plain Basin	304
7.7.5	Perennial/Intermittent Streams and Major Springs in the Ranegras Plain Basin	306
7.7.6	Groundwater Conditions of the Ranegras Plain Basin	307
7.7.7	Water Quality of the Ranegras Plain Basin	313
7.7.8	Cultural Water Demands in the Ranegras Plain Basin	317
7.7.9	Water Adequacy Determinations in the Ranegras Plain Basin	320
	References and Supplemental Reading	322

SECTION 7.8

Water Resource Characteristics of the San Simon Wash Basin	325
7.8.1 Geography of the San Simon Wash Basin	326
7.8.2 Land Ownership in the San Simon Wash Basin	328
7.8.3 Climate of the San Simon Wash Basin	330
7.8.4 Surface Water Conditions in the San Simon Wash Basin	333
7.8.5 Perennial/Intermittent Streams and Major Springs in the San Simon Wash Basin	337
7.8.6 Groundwater Conditions of the San Simon Wash Basin	338
7.8.7 Water Quality Conditions of the San Simon Wash Basin	342
7.8.8 Cultural Water Demands in the San Simon Wash Basin	346
7.8.9 Water Adequacy Determinations in the San Simon Wash Basin	350
References and Supplemental Reading	351

SECTION 7.9

Water Resource Characteristics of the Tiger Wash Basin	355
7.9.1 Geography of the Tiger Wash Basin	356
7.9.2 Land Ownership in the Tiger Wash Basin	358
7.9.3 Climate of the Tiger Wash Basin	360
7.9.4 Surface Water Conditions in the Tiger Wash Basin	362
7.9.5 Perennial/Intermittent Streams and Major Springs in the Tiger Wash Basin	365
7.9.6 Groundwater Conditions of the Tiger Wash Basin	367
7.9.7 Water Quality of the Tiger Wash Basin	371
7.9.8 Cultural Water Demands in the Tiger Wash Basin	373
7.9.9 Water Adequacy Determinations in the Tiger Wash Basin	375
References and Supplemental Reading	376

SECTION 7.10

Water Resource Characteristics of the Western Mexican Drainage Basin	379
7.10.1 Geography of the Western Mexican Drainage Basin	380
7.10.2 Land Ownership in the Western Mexican Drainage Basin	382
7.10.3 Climate of the Western Mexican Drainage Basin	384
7.10.4 Surface Water Conditions in the Western Mexican Drainage Basin	387
7.10.5 Perennial/Intermittent Streams and Major Springs in the Western Mexican Drainage Basin	389
7.10.6 Groundwater Conditions of the Western Mexican Drainage Basin	391
7.10.7 Water Quality of the Western Mexican Drainage Basin	396
7.10.8 Cultural Water Demands in the Western Mexican Drainage Basin	398
7.10.9 Water Adequacy Determinations in the Western Mexican Drainage Basin	400
References and Supplemental Reading	401

SECTION 7.11

Water Resource Characteristics of the Yuma Basin	403
7.11.1 Geography of the Yuma Basin	404
7.11.2 Land Ownership in the Yuma Basin	406
7.11.3 Climate of the Yuma Basin	408
7.11.4 Surface Water Conditions in the Yuma Basin	411
7.11.5 Perennial/Intermittent Streams and Major Springs in the Yuma Basin	416
7.11.6 Groundwater Conditions of the Yuma Basin	418
7.11.7 Water Quality of the Yuma Basin	424
7.11.8 Cultural Water Demands in the Yuma Basin	429
7.11.9 Water Adequacy Determinations in the Yuma Basin	433
References and Supplemental Reading	444

ACRONYMS AND ABBREVIATIONS 450

APPENDIX A: Arizona Water Protection Fund Projects	
In the Lower Colorado River Planning Area through Fiscal Year 2008	455

APPENDIX B: Community Water System Annual Report Data 2006-2007 and Submitted Plans	457
--	------------

Appendix C: Arizona Colorado River Water Use: Present Perfected Right Holders and Priority 1-6 Contractors in the Lower Colorado River Planning Area	461
---	------------

APPENDIX D: Colorado River Management	467
--	------------

APPENDIX E: SURFACE WATER RIGHT AND ADJUDICATION FILINGS	475
---	------------
