

ARIZONA WATER ATLAS

VOLUME 3

SOUTHEASTERN ARIZONA PLANNING AREA

ACKNOWLEDGEMENTS

Herbert Guenther

Director, Arizona Department of Water Resources

Karen Smith

Deputy Director, Arizona Department of Water Resources

Tom Carr

Assistant Director, Statewide Water Conservation and Strategic Planning

Sandra Fabritz-Whitney

Assistant Director, Water Management

Atlas Team

Linda Stitzer, Rich Burtell – Project Managers

Phyllis Andrews

Carol Birks

Kelly Mott Lacroix

Joe Stuart

Major Contributors

John Fortune

Leslie Graser

William H. Remick

Saeid Tadayon-USGS

Other Contributors

Matt Beversdorf

Patrick Brand

Roberto Chavez

Jenna Gillis

Laura Grignano (Volume 8)

Pam Nagel (Volume 8)

Mark Preszler

Kenneth Seasholes (Volume 8)

Jeff Tannler (Volume 8)

Larri Tearman

Dianne Yunker

Climate

Gregg Garfin - CLIMAS, University of Arizona

Ben Crawford - CLIMAS, University of Arizona

Casey Thornbrugh - CLIMAS, University of Arizona

Michael Crimmins – Department of Soil, Water and Environmental
Science, University of Arizona

The Atlas is wide in scope and it is not possible to mention all those who helped at some time in its production, both inside and outside the Department. Our sincere thanks to those who willingly provided data and information, editorial review, production support and other help during this multi-year project.

Special note about the Atlas Team

Completion of the Atlas would not have been possible without the dedicated professionals that compose the Atlas Team. Most have been involved with the project from its inception in 2003 and their contributions to the success of the project cannot be overstated.

CONTENTS

Preface	1
SECTION 3.0	
Overview of the Southeastern Arizona Planning Area	1
3.0.1 Geography	3
3.0.2 Hydrology	5
Groundwater Hydrology	5
Surface Water Hydrology	15
3.0.3 Climate	19
3.0.4 Environmental Conditions	22
Vegetation	22
Arizona Water Protection Fund Program	26
Instream Flow Claims	27
Threatened and Endangered Species	28
National Parks, Monuments and Memorials, Wildlife Refuges, National Conservation Areas, Wilderness Areas and Other Protected Areas	31
Unique Waters	35
3.0.5 Population	35
Population Growth and Water Use	36
3.0.6 Water Supply	39
Surface Water	40
Groundwater	44
Effluent	46
Contamination Sites	47
3.0.7 Cultural Water Demand	51
Tribal Water Demand	52
Municipal Demand	53
Agricultural Demand	58
Industrial Demand	62
3.0.8 Water Resource Issues in the Southeastern Arizona Planning Area	65
Watershed Groups	65
Planning, Management and Studies	66
Issue Surveys	69
3.0.9 Groundwater Basin Water Resource Characteristics	70
REFERENCES	73
SECTION 3.1	
Water Resource Characteristics of the Aravaipa Canyon Basin	81
3.1.1 Geography of the Aravaipa Canyon Basin	82
3.1.2 Land Ownership in the Aravaipa Canyon Basin	84
3.1.3 Climate of the Aravaipa Canyon Basin	86
3.1.4 Surface Water Conditions in the Aravaipa Canyon Basin	88
3.1.5 Perennial/Intermittent Streams and Major Springs in the	

Aravaipa Canyon Basin	90
3.1.6 Groundwater Conditions of the Aravaipa Canyon Basin	93
3.1.7 Water Quality of the Aravaipa Canyon Basin	98
3.1.8 Cultural Water Demand in the Aravaipa Canyon Basin	100
3.1.9 Water Adequacy Determinations in the Aravaipa Canyon Basin	103
References and Supplemental Reading	104
SECTION 3.2	
Water Resource Characteristics of the Bonita Creek Basin	109
3.2.1 Geography of the Bonita Creek Basin	110
3.2.2 Land Ownership in the Bonita Creek Basin	112
3.2.3 Climate of the Bonita Creek Basin	114
3.2.4 Surface Water Conditions in the Bonita Creek Basin	116
3.2.5 Perennial/Intermittent Streams and Major Springs in the Bonita Creek Basin	120
3.2.6 Groundwater Conditions of the Bonita Creek Basin	122
3.2.7 Water Quality of the Bonita Creek Basin	126
3.2.8 Cultural Water Demand in the Bonita Creek Basin	126
3.2.9 Water Adequacy Determinations in the Bonita Creek Basin	129
References and Supplemental Reading	130
SECTION 3.3	
Water Resource Characteristics of the Cienega Creek Basin	133
3.3.1 Geography of the Cienega Creek Basin	134
3.3.2 Land Ownership in the Cienega Creek Basin	136
3.3.3 Climate of the Cienega Creek Basin	138
3.3.4 Surface Water Conditions in the Cienega Creek Basin	140
3.3.5 Perennial/Intermittent Streams and Major Springs in the Cienega Creek Basin	145
3.3.6 Groundwater Conditions of the Cienega Creek Basin	148
3.3.7 Water Quality of the Cienega Creek Basin	153
3.3.8 Cultural Water Demand in the Cienega Creek Basin	157
3.3.9 Water Adequacy Determinations in the Cienega Creek Basin	161
References and Supplemental Reading	164
SECTION 3.4	
Water Resource Characteristics of the Donnelly Wash Basin	169
3.4.1 Geography of the Donnelly Wash Basin	170
3.4.2 Land Ownership in the Donnelly Wash Basin	172
3.4.3 Climate of the Donnelly Wash Basin	174
3.4.4 Surface Water Conditions in the Donnelly Wash Basin	176
3.4.5 Perennial/Intermittent Streams and Major Springs in the Donnelly Wash Basin	178
3.4.6 Groundwater Conditions of the Donnelly Wash Basin	180
3.4.7 Water Quality of the Donnelly Wash Basin	185

3.4.8	Cultural Water Demand in the Donnelly Wash Basin	187
3.4.9	Water Adequacy Determinations in the Donnelly Wash Basin	189
	References and Supplemental Reading	191
SECTION 3.5		
	Water Resource Characteristics of the Douglas Basin	195
3.5.1	Geography of the Douglas Basin	196
3.5.2	Land Ownership in the Douglas Basin	198
3.5.3	Climate of the Douglas Basin	201
3.5.4	Surface Water Conditions in the Douglas Basin	204
3.5.5	Perennial/Intermittent Streams and Major Springs in the Douglas Basin	208
3.5.6	Groundwater Conditions of the Douglas Basin	210
3.5.7	Water Quality of the Douglas Basin	216
3.5.8	Cultural Water Demand in the Douglas Basin	220
3.5.9	Water Adequacy Determinations in the Douglas Basin	224
	References and Supplemental Reading	227
SECTION 3.6		
	Water Resource Characteristics of the Dripping Springs Wash Basin	231
3.6.1	Geography of the Dripping Springs Wash Basin	232
3.6.2	Land Ownership in the Dripping Springs Wash Basin	234
3.6.3	Climate of the Dripping Springs Wash Basin	236
3.6.4	Surface Water Conditions in the Dripping Springs Wash Basin	239
3.6.5	Perennial/Intermittent Streams and Major Springs in the Dripping Springs Wash Basin	243
3.6.6	Groundwater Conditions of the Dripping Springs Wash Basin	245
3.6.7	Water Quality of the Dripping Springs Wash Basin	250
3.6.8	Cultural Water Demand in the Dripping Springs Wash Basin	250
3.6.9	Water Adequacy Determinations in the Dripping Springs Wash Basin	253
	References and Supplemental Reading	254
SECTION 3.7		
	Water Resource Characteristics of the Duncan Valley Basin	257
3.7.1	Geography of the Duncan Valley Basin	258
3.7.2	Land Ownership in the Duncan Valley Basin	260
3.7.3	Climate of the Duncan Valley Basin	262
3.7.4	Surface Water Conditions in the Duncan Valley Basin	265
3.7.5	Perennial/Intermittent Streams and Major Springs in the Duncan Valley Basin	269
3.7.6	Groundwater Conditions of the Duncan Valley Basin	271
3.7.7	Water Quality of the Duncan Valley Basin	276
3.7.8	Cultural Water Demand in the Duncan Valley Basin	279
3.7.9	Water Adequacy Determinations in the Duncan Valley Basin	283
	References and Supplemental Reading	285

SECTION 3.8

Water Resource Characteristics of the Lower San Pedro Basin	289
3.8.1 Geography of the Lower San Pedro Basin	290
3.8.2 Land Ownership in the Lower San Pedro Basin	292
3.8.3 Climate of the Lower San Pedro Basin	295
3.8.4 Surface Water Conditions in the Lower San Pedro Basin	298
3.8.5 Perennial/Intermittent Streams and Major Springs in the Lower San Pedro Basin	303
3.8.6 Groundwater Conditions of the Lower San Pedro Basin	307
3.8.7 Water Quality of the Lower San Pedro Basin	313
3.8.8 Cultural Water Demand in the Lower San Pedro Basin	317
3.8.9 Water Adequacy Determinations in the Lower San Pedro Basin	321
References and Supplemental Reading	324

SECTION 3.9

Water Resource Characteristics of the Morenci Basin	331
3.9.1 Geography of the Morenci Basin	332
3.9.2 Land Ownership in the Morenci Basin	334
3.9.3 Climate of the Morenci Basin	336
3.9.4 Surface Water Conditions in the Morenci Basin	339
3.9.5 Perennial/Intermittent Streams and Major Springs in the Morenci Basin	345
3.9.6 Groundwater Conditions of the Morenci Basin	348
3.9.7 Water Quality of the Morenci Basin	353
3.9.8 Cultural Water Demand in the Morenci Basin	356
3.9.9 Water Adequacy Determinations in the Morenci Basin	360
References and Supplemental Reading	363

SECTION 3.10

Water Resource Characteristics of the Safford Basin	369
3.10.1 Geography of the Safford Basin	370
3.10.2 Land Ownership in the Safford Basin	372
3.10.3 Climate of the Safford Basin	375
3.10.4 Surface Water Conditions in the Safford Basin	378
3.10.5 Perennial/Intermittent Streams and Major Springs in the Safford Basin	385
3.10.6 Groundwater Conditions of the Safford Basin	390
3.10.7 Water Quality of the Safford Basin	398
3.10.8 Cultural Water Demand in the Safford Basin	403
3.10.9 Water Adequacy Determinations in the Safford Basin	408
References and Supplemental Reading	411

SECTION 3.11

Water Resource Characteristics of the San Bernardino Valley Basin	417
3.11.1 Geography of the San Bernardino Valley Basin	418

3.11.2	Land Ownership in the San Bernardino Valley Basin	420
3.11.3	Climate of the San Bernardino Valley Basin	422
3.11.4	Surface Water Conditions in the San Bernardino Valley Basin	424
3.11.5	Perennial/Intermittent Streams and Major Springs in the San Bernardino Valley Basin	427
3.11.6	Groundwater Conditions of the San Bernardino Valley Basin	429
3.11.7	Water Quality of the San Bernardino Valley Basin	434
3.11.8	Cultural Water Demand in the San Bernardino Valley Basin	436
3.11.9	Water Adequacy Determinations in the San Bernardino Valley Basin	438
	References and Supplemental Reading	439
SECTION 3.12		
Water Resource Characteristics of the San Rafael Basin		441
3.12.1	Geography of the San Rafael Basin	442
3.12.2	Land Ownership in the San Rafael Basin	444
3.12.3	Climate of the San Rafael Basin	446
3.12.4	Surface Water Conditions in the San Rafael Basin	449
3.12.5	Perennial/Intermittent Streams and Major Springs in the San Rafael Basin	453
3.12.6	Groundwater Conditions of the San Rafael Basin	455
3.12.7	Water Quality of the San Rafael Basin	460
3.12.8	Cultural Water Demand in the San Rafael Basin	463
3.12.9	Water Adequacy Determinations in the San Rafael Basin	465
	References and Supplemental Reading	466
SECTION 3.13		
Water Resource Characteristics of the Upper San Pedro Basin		469
3.13.1	Geography of the Upper San Pedro Basin	470
3.13.2	Land Ownership in the Upper San Pedro Basin	472
3.13.3	Climate of the Upper San Pedro Basin	475
3.13.4	Surface Water Conditions in the Upper San Pedro Basin	478
3.13.5	Perennial/Intermittent Streams and Major Springs in the Upper San Pedro Basin	483
3.13.6	Groundwater Conditions of the Upper San Pedro Basin	486
3.13.7	Water Quality of the Upper San Pedro Basin	496
3.13.8	Cultural Water Demand in the Upper San Pedro Basin	501
3.13.9	Water Adequacy Determinations in the Upper San Pedro Basin	506
	References and Supplemental Reading	517
SECTION 3.14		
Water Resource Characteristics of the Willcox Basin		531
3.14.1	Geography of the Willcox Basin	532
3.14.2	Land Ownership in the Willcox Basin	534
3.14.3	Climate of the Willcox Basin	537
3.14.4	Surface Water Conditions in the Willcox Basin	540

3.14.5 Perennial/Intermittent Streams and Major Springs in the Willcox Basin	544
3.14.6 Groundwater Conditions of the Willcox Basin	547
3.14.7 Water Quality of the Willcox Basin	556
3.14.8 Cultural Water Demand in the Willcox Basin	560
3.14.9 Water Adequacy Determinations in the Willcox Basin	564
References and Supplemental Reading	567
APPENDIX A: Arizona Water Protection Fund Projects in the Southeastern Arizona Planning Area through 2008	573
APPENDIX B: Community Water System Annual Report Data 2006-2007 and Submitted Plans	577
APPENDIX C: Surface Water Rights and Adjudication Filings	585
APPENDIX D: Watershed Partnerships in the Southeastern Arizona Planning Area (2008)	593
