Looks like we are still planning on being in the Galiuros next week per Larry.

Hi Clay,

March 19-21 Would still work the best for us at Muleshoe. We have rooms available and can provide at least three TNC people. Lets talk.

Thanks,

Larry

Do keep Bob in these loops, even if you're not hearing from him right away. Larry and Amanda have been involved in the past, too.

I'm guessing, if it's pushed back, we can gather up enough folks to make it happen. May 21-22-23 are staff retreat dates involving many TNC-ites.

And Wiley's off relaxing in Mexico at the moment.

Clay,
FYI Ken Wiley retired about a month ago. I've copied Brooke here because she's been in more regular contact with Bob than anyone and may be able to offer up some suggestions.

While I couldn't make the March dates the May dates are a possibility. Additionally we may have an Americorps crew available to assist.

Ken & Matt,

In early/mid-February, Bob Rogers and I started corresponding regarding AGFD assisting TNC on the Green sunfish removal in March.

We had tentatively set the dates of March 19-21; I haven't attempted contacting Bob in the last few weeks but as you can see, March 19th is only a week away.

Can either of you give me a possible update regarding the possibility of this trip moving forward with the same dates?

I can bump it back until the first week in May if need be but as I'm sure you fellas know...the field season comes fast and the sooner I can make this change the better.

I'd just like to move forward with planning and coordinating regarding this activity and if we should stand down for the time being.

I look forward to hearing from you

-Clay
