10 be seen or heard from areas within a wilderness shall not, of
11 itself, preclude such activities or uses up to the boundary of

7 regulations fully conform with and implement the intent of
8 Congress regarding grazing in such areas, as such intent is
9 expressed in this Act.

10 (3) Not later than one year after the date of the enact-

15 the President shall submit his recommendations to the United
16 States House of Representatives and the United States
17 Senate no later than January 1, 1986.

18 (b) Subject to valid existing rights, the wilderness study
19 areas designated by this section shall, until Congress deter-
20 mines otherwise, be administered by the Secretary so as to
21 maintain their presently existing wilderness character and
22 potential for inclusion in the National Wilderness Preserva-
23 tion System.

24 SEC. 103. (a) The Congress finds that—

1 (1) the Department of Agriculture has completed

9 determines and directs that—

10 (1) without passing on the question of the legal

24 initial land management plans required for such lands
25 by the Forest and Rangeland Renewable Resources

1 Planning Act of 1974 as amended by the National
2 Forest Management Act of 1976 to be an adequate
3 consideration of the suitability of such lands for inclu-
4 sion in the National Wilderness Preservation System
5 and the Department of Agriculture shall not be re-
6 quired to review the wilderness option prior to the re-
7 vision of the initial plans and in no case prior to the
8 date established by law for completion of the initial
9 planning cycle;

10 (3) areas in the State of Arizona reviewed in such
11 final environmental statement which, upon enactment
12 of this Act, are not designated as wilderness or desig-

1 native plant, fish, and wildlife, making it a resource of
2 national significance; and

3 (2) the Aravaipa Canyon should, together with
4 certain adjoining public lands, be incorporated within
5 the national wilderness preservation system in order to
6 provide for the preservation and protection of this rela-
7 tively undisturbed but fragile complex of desert, ripar-
8 ian and aquatic ecosystems, and the native plant, fish,
9 and wildlife communities dependent on it, as well as to
10 protect and preserve the area's great scenic, geologic,
11 and historical values, to a greater degree than would
12 be possible in the absence of wilderness designation.

13 SEC. 202. In furtherance of the purposes of the Wilder-
14 ness Act of 1964 (78 Stat. 890, 16 U.S.C. 1131 et seq.) and
15 consistent with the policies and provisions of the Federal
16 Land Policy and Management Act of 1976 (90 Stat. 2743;
17 43 U.S.C. 1701 et seq.), certain public lands in Graham and

19 effect, the Secretary of the Interior shall file a map and a
20 legal description of the Aravaipa Canyon Wilderness with the
21 Committee on Energy and Natural Resources of the United
22 States Senate and with the Committee on Interior and Insu-
23 lar Affairs of the United States House of Representatives,

8 tion of rules and regulations to provide for its administration
9 as a component of the national wilderness preservation
10 system, subject to existing withdrawals, the Aravaipa
11 Canyon Wilderness shall be administered under rules and
12 regulations of the Secretary of the Interior applicable to des-
