

Mr. Speaker, I am pleased that this three-part "antitrust package" is being considered before the House before the 101st Congress adjourns. It is unfortunate that this important legislation comes up under circumstances of haste, as we move toward adjournment—because its full legal significance cannot be adequately described or analyzed. Nevertheless, as the principal sponsor of H.R. 29 in the House, I am most gratified that this legislation is before us.

Importantly, this bill will revise and modernize the jurisdictional threshold contained in section 8 of the Clayton Act—a provision virtually untouched since its enactment in 1914.

Mr. Speaker, section 8 currently bars any person from serving as a director on the boards of two or more corporations engaged in interstate commerce if at least one of them has capital, surplus and undivided profits aggregating over \$1 million, and if they, by virtue of their business and location, are or have been competitors. *Protecto Seal Co. v. Baronick*, 484 F.2d 585, 589 (7th Cir., 1973); *United States v. Sears, Roebuck & Co.*, 111 F.Supp. 614, 617 (S.D.N.Y. 1953). See also *BankAmerica Corp. v. United States*, 462 U.S. 122, 127 (1983)—discussing the legislative history of section 8.

Corporations and the economy in general, of course, have grown to the extent that businesses having \$1 million in capital are considered relatively small and are unlikely today to have the substantial economic impact originally envisioned. Proponents argue, therefore, that adjusting the limit upward would merely acknowledge the changes in the economy over the past 75 years.

Section 8 has become a serious problem for many businesses that are seeking qualified directors. The statute imposes a per se standard of liability. That is, a violation can be found regardless of any showing of anticompetitive intent or effect. Furthermore, criminal penalties may be imposed for violations of section 8—the section is enforced by the Justice Department and the Federal Trade Commission—and treble damage actions can be brought by private claimants. Consequently, a violation of section 8 is a risky business.

This section 8 reform bill will accomplish the following:

First, raise the prohibition threshold from \$1 to \$10 million;

Second, require that both corporations involved exceed the \$10 million threshold before an interlock could be prohibited;

Third, limit the prohibition to companies which are currently competitors, eliminating its application to companies which have been in competition only previously;

Fourth, add an indexing provision to section 8 which would annually adjust

the jurisdictional threshold based on a percentage of GNP;

Fifth, insert a de minimis standard in the statute so that substantial competition between two corporations will be required before an interlock could be prohibited;

Sixth, make section 8 applicable to common carriers for the first time; and

Seventh, expand the prohibition to include corporate officers.

In addition, this measure would repeal section 10 of the Clayton Act. Section 10 requires compliance with competitive bidding regulations prescribed by the Interstate Commerce Commission whenever a railroad or other common carrier enters into financing, supply, construction or maintenance contracts in excess of \$50,000 in any 1 year with a company with which it has a corporate interlock of personnel.

The intent of H.R. 29 is to bring the railroads under the Interlocking Director prohibitions in section 8—the standard that applies to all other businesses. Section 10 limits the ability of a railroad to do business with another company simply because one of its directors may work for the other company. Section 10 does not require that the railroad and the other company be direct competitors—which is, of course, the standard for the prohibition in section 8. Section 10 is a "legal relic" that should be repealed.

In extending section 8 coverage to common carriers, we do not intend to prohibit existing, regulated joint transportation pool arrangements. So, for example, "Competitive sales" as it is used in H.R. 29 does not extend to railroads offering their own equipment to shippers and offering equipment to shippers through jointly-owned car pools that are established pursuant to 49 U.S.C. 11342.

This measure also contains the provisions of the antitrust criminal penalties bill (H.R. 3341), which passed this House on October 17, 1989. It will increase fines for criminal violations of the Sherman Act to \$10 million—up from the present \$1 million—for corporations, and to \$350,000—up from the present \$100,000—for individuals.

Finally, this legislation will allow the U.S. Government to recover treble damages for antitrust injury. Currently, the United States only can recover actual damages under the Federal antitrust laws, while private parties can recover treble damages. In these times of budgetary stress this change makes good sense, as well as good policy.

Mr. Speaker, I urge an "aye" vote on this omnibus antitrust bill.

Mr. FISH. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. BROOKS. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Texas [Mr. Brooks] that the House suspend the rules and concur in the Senate amendments to the bill H.R. 29.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the Senate amendments to the bill were concurred in.

A motion to reconsider was laid on the table.

#### GENERAL LEAVE

Mr. BROOKS. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks, and include therein extraneous material, on the three bills just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

(d) **NO BUFFER ZONES.**—The Congress does not intend for the designation of wilderness areas in the State of Arizona pursuant to this title to lead to the creation of protective perimeters or buffer zones around any such wilderness area. The fact that non-wilderness activities or uses can be seen or heard from areas within a wilderness shall not, of itself, preclude such activities or uses up to the boundary of the wilderness area.

(e) **FISH AND WILDLIFE.**—As provided in paragraph (7) of section 4(d) of the Wilderness Act, nothing in this title or in the Wilderness Act shall be construed as affecting the jurisdiction or responsibilities of the State of Arizona with respect to wildlife and fish on the public lands located in that State.

(3) Nothing in this title shall be construed as a relinquishment or reduction of any water rights reserved or appropriated by the United States in the State of Arizona on or before the date of enactment of this Act.

(4) The Federal water rights reserved by this title are specific to the wilderness areas located in the State of Arizona designated by this title. Nothing in this title related to reserved Federal water rights shall be construed as establishing a precedent with regard to any future designations, nor shall it constitute an interpretation of any other Act or any designation made pursuant thereto.

(h) **WILDLIFE MANAGEMENT.**—In furtherance of the purposes and principles of the Wilderness Act, management activities to maintain or restore fish and wildlife populations and the habitats to support such populations may be carried out within wilderness areas designated by this title, where consistent with relevant wilderness management plans, in accordance with appropriate policies and guidelines such as those set forth in Appendix B of the Report of the Committee on Interior and Insular Affairs to accompany H.R. 2570 of the One Hundred First Congress (H. Rept. 101-405).

(2)(A) In order to permit adequate public and private access to Federal, State, and private lands on the east side of the Santa Teresa Mountains, the Secretary, acting through the Bureau of Indian Affairs, shall administer that portion of Black Rock Wash Road located within the boundaries of the San Carlos Apache Reservation so as to allow reasonable use of the road for private and administrative purposes and may permit limited public use of such road for the purpose of access to the public lands outside of the reservation boundary.

(B) The Secretary, acting through the Bureau of Indian Affairs, is authorized, subject to the provisions of the Act of June 18, 1934, Chapter 576, Section 16 (25 U.S.C. 476; 48 Stat. 987), to enter into cooperative agreements with the Bureau of Land Management, the Forest Service, and Graham County, Arizona, for signing, fencing, and maintenance of the portion of Black Rock Wash Road referred to in paragraph (A). The entering into of cooperative agreements as authorized by this subsection shall not be construed in any way as a determination of the ownership of such portion of Black Rock Wash Road.

(3) There are authorized to be appropriated such sums as may be necessary to carry out this subsection.

(l) **ALAMO DAM.**—Nothing in this title shall be construed to affect the operation for

flood control purposes of the Alamo Dam located on the Bill Williams River.

Excepting for the Baker Canyon area (AZ-040-070), and the approximately 57,800 acres of public land as generally depicted on a map entitled "Cactus Plain Wilderness Study Area" dated February, 1990, the Congress hereby finds and directs that all public lands in Arizona, administered by the Bureau of Land Management pursuant to the Federal Land Policy and Management Act of 1976 not designated as wilderness by this title, or previous Acts of Congress, have been adequately studied for wilderness designation pursuant to section 603 of such Act and are no longer subject to the requirement of section 603(c) of such Act pertaining to the management of wilderness study areas in a manner that does not impair the suitability of such areas for preservation as wilderness.

#### TITLE II—DESIGNATION OF THE GILA BOX RIPARIAN NATIONAL CONSERVATION AREA

##### SEC. 201. DESIGNATION AND MANAGEMENT.

(a) **PURPOSES.**—In order to conserve, protect, and enhance the riparian and associated areas described in subsection (b) and the aquatic, wildlife, archeological, paleontological, scientific, cultural, recreational, educational, scenic, and other resources and values of such areas, there is hereby established the Gila Box Riparian National Conservation Area (hereafter in this title referred to as the "conservation area").

(2) The Secretary shall allow only such uses of the conservation area as the Secretary finds will further the purposes for which the conservation area is established. Except where needed for administrative purposes or to respond to an emergency, use of motorized vehicles in the conservation area shall be permitted only on roads specifically designated for such use as part of the management plan prepared pursuant to subsection (g).

(e) **WITHDRAWAL.**—Subject to valid existing rights, all Federal lands within the conservation area are hereby withdrawn from all forms of entry, appropriation, or disposal under the public land laws; from location,

entry, and patent under the United States mining laws; and from disposition under all laws pertaining to mineral and geothermal leasing, and all amendments thereto.

(f) **WATER.**—(1) Congress hereby reserves a quantity of water sufficient to fulfill the purposes, as specified in subsection (a), for which the conservation area is established. The priority date of this reserved right shall be the date of enactment of this Act.

(2) The Secretary and all other officers of the United States shall take all steps necessary to protect the right reserved by paragraph (1), including the filing by the Secretary of a claim for the quantification of such right in any present or future appropriate stream adjudication in the courts of the State of Arizona in which the United States is or may be joined and which is conducted in accordance with the McCarran Amendment (43 U.S.C. 666).

(4) The Federal rights reserved by this title are specific to the conservation area located in the State of Arizona designated by this title. Nothing in this title related to reserved Federal water rights shall be construed as establishing a precedent with regard to any future designations, nor shall it constitute an interpretation of any other Act or any designation made pursuant thereto.

(5) Nothing in this title shall be construed to impair or conflict with the implementation of the authorization contained in section 304(f) of Public Law 90-537, approved September 30, 1968.

(g) **MANAGEMENT PLAN.**—(1) No later than two years after the date of enactment of this Act, the Secretary shall develop a comprehensive plan for the long-term management of the conservation area (hereinafter in this title referred to as the "management plan") in order to fulfill the purposes for which the conservation area is established. The management plan shall be developed with full public participation and shall include provisions designed to assure protection of the resources and values (including the resources and values specified in subsection (a)) of the conservation area.

(2) The management plan shall include a discussion of the desirability of the inclusion in the conservation area of additional lands, including the lands not in Federal ownership that are contiguous to the boundary of the conservation area (as depicted on the map referenced in subsection (b) or as hereafter adjusted pursuant to subsection (h)) and within the area extending two miles on either side of the centerline of Eagle Creek from the point where Eagle Creek crosses the southern boundary of the Apache National Forest to the confluence of Eagle Creek with the Gila River (this area is hereafter referred to in this title as the "Eagle Creek riparian area").

(3) In order to better implement the management plan, the Secretary may enter into cooperative agreements with appropriate State and local agencies pursuant to section 307(b) of the Federal Land Policy and Management Act of 1976.

(4) In order to assist in the development and implementation of the management plan, the Secretary may authorize appropriate research, including research concerning the environmental, biological, hydrological, cultural, and other characteristics, resources, and values of the conservation area,

(2) The Secretary is authorized to adjust the boundaries of the conservation area so as to incorporate within the conservation area any lands or interests within the Eagle Creek riparian area that may be acquired after the date of enactment of this Act as well as public lands within that portion of the Eagle Creek riparian area west of the centerline of Eagle Creek that the Secretary finds appropriate in order to properly manage such acquired lands as part of the conservation area. Any lands or interests so incorporated shall be managed as part of the conservation area.

(3) No lands or interests therein owned by the State of Arizona or any political subdivision of such State shall be acquired pursuant to this subsection except through donation or exchange, and no lands or interests within the conservation area or the Eagle Creek riparian area shall be acquired from any other party or entity except by donation, exchange, or purchase with the consent of the owner of such lands or interests.

(i) **NO BUFFER ZONES.**—The Congress does not intend for the establishment of the conservation area to lead to the creation of protective perimeters or buffer zones around the conservation area. The fact that there may be activities or uses on lands outside the conservation area that would not be permitted in the conservation area shall not preclude such activities or uses on such lands up to the boundary of the conservation area to the extent consistent with other applicable law.

(j) **ADVISORY COMMITTEE.**—The Secretary shall establish an advisory committee to advise the Secretary with respect to the preparation and implementation of the management plan. Such advisory committee shall consist of seven members appointed by the Secretary. One member shall be appointed from among recommendations submitted by the Governor of Arizona, one member shall be appointed from among recommendations submitted by the Graham County Board of Supervisors and one member shall be appointed from among recommendations submitted by the Greenlee County Board of Supervisors. The remaining members shall be persons recognized as experts in wildlife conservation, riparian ecology, archeology, paleontology, or other disciplines directly related to the purposes for which the conservation area is established.

(k) **REPORT.**—No later than five years after the date of enactment of this Act, and at least each ten years thereafter, the Secretary shall report to the Committee on Interior and Insular Affairs of the United States House of Representatives and the Committee on Energy and Natural Resources of the United States Senate on the implementation of this title, the condition of the resources and values of the conservation area, and the progress of the Secretary in achieving the purposes for which the conservation area is established.

(m) **AUTHORIZATION.**—There are hereby authorized to be appropriated such sums as may be necessary to implement the provisions of this title.

(4) The Federal water rights reserved by this title are specific to the wilderness areas located in the State of Arizona designated by this title. Nothing in this title related to reserved Federal water rights shall be construed as establishing a precedent with regard to any future designations, nor shall it constitute an interpretation of any other Act or any designation made pursuant thereto.

(2) precluding the Secretary of Defense from entering into new or renewed agreements with the Secretary concerning use by military aircraft of airspace over such refuge or the maintenance of existing associated ground instrumentation, consistent with management of the refuge for the purpose for which such refuge was established and in accordance with laws applicable to the National Wildlife Refuge System.

(2) precluding the Attorney General of the United States or the Secretary of the Treasury from entering into new or renewed agreements with the Secretary concerning Immigration and Naturalization Service, Drug Enforcement Administration, or United States Customs Service border oper-

#### TITLE IV—FORT McDOWELL INDIAN COMMUNITY WATER RIGHTS SETTLEMENT

##### SECTION 401. SHORT TITLE.

This Title may be cited as the "Fort McDowell Indian Community Water Rights Settlement Act of 1990".

##### SEC. 402. CONGRESSIONAL FINDINGS AND DECLARATIONS.

(a) The Congress finds that—

(1) it is the policy of the United States, in fulfillment of its trust responsibility to Indian tribes, to promote Indian self-determination and economic self-sufficiency, and to settle, wherever possible, the water rights claims of Indian tribes, without lengthy and costly litigation;

(2) meaningful Indian self-determination and economic self-sufficiency depend on development of viable Indian reservation economies;

(3) quantification of rights to water and development of facilities needed to utilize tribal water supplies effectively is essential to the development of viable Indian reservation economies, particularly in arid western States;

(4) on September 15, 1903, the United States Government established a reservation for the Fort McDowell Indian Community in Arizona north of the confluence of the Salt and Verde Rivers tributary to the Gila River;

(5) the United States, as trustee for the Community, obtained water entitlements for the Community pursuant to the Kent Decree of 1910; however, continued uncertainty as to the full extent of the Community's entitlement to water has severely limited the Community's access to water and the financial resources necessary to develop its valuable agricultural lands and frustrated its efforts to reduce its dependence on Federal program funding and achieve meaningful self-determination and economic self-sufficiency;

(6) proceedings to determine the full extent and nature of the Community's water rights and damages thereto are currently pending before the United States District Court in Arizona, the United States Claims Court, the Superior Court of the State of Arizona in and for Maricopa County, as part of the General Adjudication of the Gila River System and Source, and before various federal agencies under the Federal Tort Claims Act;

(7) recognizing that final resolution of pending litigation will take many years and entail great expense to all parties, continue economically and socially damaging limits to the Community's access to water, prolong uncertainty as to the availability of water supplies and seriously impair the long-term economic planning and development of all parties, the Community and neighboring non-Indian communities have sought to

settle disputes over water and reduce the burdens of litigation;

(8) after more than five years of negotiation, which included participation by representatives of the United States Government, the Community and neighboring non-Indian communities of the Salt River Valley, who are all party to the General Adjudication of the Gila River System and Source, the parties have entered into an agreement to resolve all water rights claims between and among themselves, to quantify the Community's entitlement to water, and to provide for the orderly development of the Community's lands;

(9) pursuant to the agreement, the neighboring non-Indian communities will transfer rights to approximately twelve thousand acre-feet of surface water to the Community; provide for the means of firming existing water supplies of the Community, and make substantial additional contributions to carry out the agreement's provisions; and

(10) to advance the goals of Federal Indian policy and to fulfill the trust responsibility of the United States to the Community, it is appropriate that the United States participate in the implementation of the agreement and contribute funds for the rehabilitation and expansion of existing reservation irrigation facilities so as to enable the Community to utilize fully its water entitlements in developing a diverse, efficient reservation economy.

(b) Therefore, the Congress declares that the purposes of this Act are: (1) to approve, ratify and confirm the agreement entered into by the Community and its neighboring non-Indian communities, (2) to authorize and direct the Secretary of the Interior to execute and perform such agreement, and (3) to authorize the actions and appropriations necessary for the United States to fulfill its legal and trust obligations to the Community as provided in the agreement and this Act.

(c) The lands within the RWCD and the lands within the SRP shall be free from the ownership limitations of Federal reclamation law and all full cost pricing provisions of Federal law.

(d) Neither SRP nor the RWCD shall become subject to the provisions of the Reclamation Reform Act of 1982 (43 U.S.C. 390aa et seq.) by virtue of either of their participation in the settlement or their execution and performance of the Agreement, including, but not limited to, any exchanges provided for in the Agreement.

#### SEC. 406. OTHER WATER.

(a) The Secretary is authorized and directed to acquire for the Community thirteen thousand nine hundred thirty-three acre-feet of water from one or a combination of the following sources:

(1) CAP water permanently relinquished by the HVID pursuant to contract with the Secretary.

(2) CAP municipal and industrial water and CAP Indian priority water permanently relinquished by the City of Prescott, the Yavapai-Prescott Tribe, the Yavapai-Apache Indian Community of the Camp Verde Reservation, the Cottonwood Water Company or the Camp Verde Water Company pursuant to contract with the Secretary. Any water acquired by the Secretary pursuant to this section shall be acquired with the consent of the contracting entity and shall be assigned to the Community in partial satisfaction of the Secretary's obligation under this section.

(3) In the event that the Secretary cannot acquire thirteen thousand nine hundred and thirty-three acre-feet of water, solely or in combination, from the sources identified in subsections (a)(1) and (a)(2) of this section, then the Secretary is authorized to acquire, from all water resources within the State of Arizona at the disposal of the United States, water in amounts necessary to meet the requirements of this section.

#### HARQUAHALA VALLEY IRRIGATION DISTRICT

(b) The Secretary is authorized to contract with the HVID for the permanent relinquishment of any portion of HVID's rights to CAP agricultural water.

(1) The Secretary may use HVID water with its original CAP agricultural priority or may convert it, at the rate of one acre-foot per CAP-eligible acre, to a maximum of thirty-three thousand two hundred and sixty-three acre-feet of CAP Indian priority water. Up to thirteen thousand nine hundred and thirty-three acre-feet of such water shall be made available to the Community by contract with the Secretary.

(2) As consideration for the fair value of water relinquished under subsection (b) of this section, the Secretary is authorized:

(i) to credit the HVID with an appropriate share of its outstanding CAP distribution system debt, with such share reflecting the relationship between the amount of HVID CAP rights acquired by the Secretary and the total CAP allocation of the HVID; and

(ii) to offset the annual repayment requirements of the CAWCD under repayment contract numbered 14-06-W-245 in amounts which total the balance of the fair value of the water acquired and not accounted for under (i) above until such value is exhausted.

(3) In the event that the Secretary acquires all or a part of the CAP water rights of the HVID, the following shall apply:

(i) The Secretary is authorized to transfer title to existing federal facilities within HVID that are no longer needed for CAP

purposes to the CAWCD or to other non-Federal entities.

(ii) The Secretary is authorized to approve or execute any agreements that are necessary to accomplish the transfer of HVID's CAP agricultural water rights to the Secretary for Indian water rights settlement purposes. As a condition of the transfer of such entitlement, the lands which are purchased by non-Federal interests within HVID must be excluded from HVID. Except as provided for in Article 8.7 of the December 1, 1988, contract between the United States and CAWCD, the excluded lands shall not be entitled to a supply of CAP water for agricultural purposes and shall not be subject to the ownership limitations of Federal reclamation law and all full cost pricing provisions of Federal law.

(iii) The agreement implementing the transfer of HVID's CAP agricultural water rights to the Secretary shall provide that any lands which remain in HVID or its successor shall continue to be subject to the ownership limitations of Federal reclamation law and all full cost pricing provisions of Federal law as long as HVID, or its successor, has a Federal repayment obligation for the cost of the CAP distribution system. The agreement implementing the transfer shall provide that lands remaining in HVID, or its successor, will not bear costs of operation, maintenance, and replacement for the CAP distribution system greater than that which they would have in the absence of the transfer of HVID's CAP agricultural water rights.

(4) Water acquired by the Secretary for the Fort McDowell Indian Community pursuant to this subsection shall be delivered to the Community as provided for in the Agreement. Any remaining water acquired by the Secretary pursuant to this subsection (b) shall be used only in the settlement of water rights claims of other Indian tribes having claims to the water in the Salt and Verde River system.

#### VERDE RIVER WATERSHED

(c) Providing that the Secretary first acquires at least seven thousand acre-feet of CAP water from one or more of the entities named in subsection (a)(2), of this section, the Secretary is authorized to acquire, by purchase from willing sellers, land and water rights in the Big Chino Valley of the Verde River watershed, in an amount sufficient to replace all such water so acquired.

(1) The Secretary shall not acquire any land or water rights in the Big Chino Valley of the Verde River watershed until he has completed a study to determine whether, through the construction of water diversion, collection, and conveyance facilities to deliver water to a point near Sullivan Lake in Yavapai County, Arizona (hereinafter referred to as the "Sullivan Lake delivery point"), the exercise of such water rights will not have an adverse effect on the flow or the biota of the Verde River and that such exercise is not likely to jeopardize the continued existence of *Meda fulgida* (spikedace) or any other threatened or endangered species. The Secretary shall make the study required by this paragraph available to the public for inspection and comment upon its completion.

(2) The Secretary is authorized to enter into an agreement with the City of Prescott to reimburse the city for not to exceed \$800,000 advanced to the Secretary by the city for the purpose of expediting completion of the study required in subsection (c)(1) of this section.

(3) If the Secretary determines, based upon the findings of the study, that the exercise of water rights will not have an adverse effect on the flow or the biota of the Verde River and is not likely to jeopardize the continued existence of *Meda fulgida* (spikedace) or any other threatened or endangered species, the Secretary shall be authorized to acquire land in the Big Chino Valley and to construct diversion, collection, and conveyance facilities sufficient to deliver the water to the Sullivan Lake delivery point.

(4) The Secretary shall develop and implement a continuous monitoring program to ensure that groundwater pumping from land acquired pursuant to this subsection (c) shall not adversely affect the flow or the biota of the Verde River and to ensure that it will not jeopardize the continued existence of *Meda fulgida* (spikedace) or any other threatened or endangered species. The program shall be developed prior to and implemented concurrent with the construction of the facilities described in subsection (c)(3) of this section.

(d) If the Secretary acquires the CAP contract or subcontracts of the Yavapai-Apache Indian Community of the Camp Verde Reservation, the Cottonwood Water Company or the Camp Verde Water Company, the Secretary is authorized to construct water conveyance facilities from the Sullivan Lake delivery point to a point downstream on the Verde River. Subject to the study required in subsection (d)(1) of this section and all applicable law, the Secretary is further authorized to place into the Verde River at the point downstream an amount of water sufficient, including all losses, to replace the water assigned by such entity or entities pursuant to this subsection.

(1) The Secretary shall not construct any water conveyance facilities from the Sullivan Lake delivery point to any point downstream on the Verde River to replace water assigned pursuant to subsection (a)(2) of this section, until he has completed a study to determine whether the flow of the Verde River may be augmented without jeopardizing the continued existence of *Meda fulgida* (spikedace) or any other threatened or endangered species and, if the flow of the Verde may be so augmented, at what point or points downstream from the Sullivan Lake delivery point such augmentation would be most appropriate.

(2) The Secretary shall, in conjunction with arrangements for the delivery of water pursuant to this subsection (d), develop and implement a monitoring program to ensure that the augmentation of the Verde River will not jeopardize the continued existence of *Meda fulgida* (spikedace) or any other threatened or endangered species.

(e) If the Secretary acquires the CAP contract or subcontract of the Yavapai-Prescott Tribe or the City of Prescott, the Secretary is authorized to construct water conveyance facilities from the Sullivan Lake delivery point to the City of Prescott's existing pumping facilities in the Little Chino Valley, Yavapai County, Arizona. If the Secretary constructs such water conveyance facilities, the City of Prescott shall repay the Secretary for the costs thereof. Nothing in this subsection shall be construed to prevent the City of Prescott from constructing such conveyance facilities itself.

(1) The Secretary shall deliver water to the City of Prescott's existing pumping facilities or to such other point as the Secretary and the City of Prescott may agree, in an amount sufficient, including all losses, to

replace the water acquired from the City of Prescott and the Yavapai-Prescott Tribe.

(2) The Secretary is authorized and directed to enter into such agreements as are necessary to ensure that the Yavapai-Prescott Tribe will receive its share of the water to be developed by the Secretary pursuant to this subsection (e). Such agreement shall set forth the cost and other terms of delivery of such water.

(3) The Secretary is authorized and directed, at the request of the Yavapai-Prescott Indian Tribe, to enter into and renew agreements granting the Yavapai-Prescott Indian Tribe long-term grazing privileges on the land acquired by the Secretary pursuant to subsection (a)(2) of this section: *Provided*, That the exercise of such privileges by the Yavapai-Prescott Indian Tribe shall not interfere with the exercise of water rights upon such land except for water reasonably needed by the Yavapai-Prescott Indian Tribe in connection with grazing.

(f) The Secretary is authorized to contract to deliver replacement water to the entities identified in subsections (d) and (e) of this section which relinquish CAP water to the Secretary for the benefit of the Community. The replacement water shall be delivered by the Secretary at the Sullivan Lake delivery point unless otherwise agreed by the Secretary and the entity to receive the water. No replacement water may be delivered to any entity other than those identified in subsection (a)(2) of their section or their agents, and no replacement water may be used directly or indirectly outside Yavapai County, Arizona.

(g) The entities which relinquish CAP water to the Community pursuant to subsection (a)(2) of this section shall not be required to repay costs incurred by the United States pursuant to subsections (c) and (c)(3) of this section. The entities identified in subsection (d) of this section, except for any entity which is an Indian tribe, shall repay the United States so much of the cost of the undertaking identified in subsection (d) as the entities and the United States shall agree. The costs of any undertaking pursuant to this subsection (g) allocated to an Indian tribe shall be nonreimbursable.

(h) The Secretary is authorized and directed to study the sources and cost of the water supplies, other than those identified in this section, that can be used to satisfy the water rights of the Yavapai-Prescott Indian Tribe and of the Yavapai-Apache Indian Community of the Camp Verde Reservation. A separate study shall be made for each tribe. Each study shall be commenced within one hundred and eighty days after the enactment of this Act and shall be completed within one year after it is commenced. Copies of such studies shall be provided to the Committee on Interior and Insular Affairs of the United States House of Representatives and the Select Committee on Indian Affairs of the United States Senate.

(i) If the Secretary acquires water for the Community pursuant to subsection (a)(2) of this section, then the Secretary shall exclude, for the purpose of determining the allocation and repayment of costs of the CAP-as provided in Article 9.3 of Contract No. 14-06-W-245 between the United States and CAWCD dated December 15, 1972, and any amendment or revision thereof, the costs associated with such water from CAWCD's repayment obligation and such costs shall be non-reimbursable.

(j) The Secretary shall, in the exercise of the authorities provided in subsection (a) of

this section, comply with all applicable environmental law.

(k) If the Secretary acquires at least seven thousand acre-feet of CAP water from the entities identified in subsection (a)(2) of this section, there is authorized to be appropriated not to exceed \$30,000,000 to pay the costs of acquiring the land and water resources identified in subsection (c) of this section and the costs allocable to the construction of diversion, collection, and conveyance facilities described in subsection (c); costs allocable to the construction or diversion, collection, and conveyance facilities shall be adjusted by such amounts, if any, as may be justified by reason of ordinary fluctuations in construction costs as indicated by engineering cost indices applicable to the types of construction involved therein.

(l) There is authorized to be appropriated such sums as may be necessary to provide for the studies required in subsections (c)(1), (d)(1), and (h) of this section and for the monitoring programs described in subsections (c)(4) and (d)(2) of this section.

#### SEC. 407. WATER DELIVERY CONTRACT AMENDMENTS; WATER LEASE.

(b) Notwithstanding any other provision of law, the amendments to the Community CAP Delivery Contract set forth in exhibit "20.2.1" to the Agreement and the terms and conditions of the Project Water Lease set forth in exhibit "20.2.2" to the Agreement are hereby authorized, approved, and confirmed.

(c) The United States shall not impose upon the Community the operation, maintenance and replacement charges described and set forth in section "6(b)" of the Community CAP Delivery Contract or any other charge with respect to CAP water delivered or required to be delivered to the City of Phoenix as lessee of the Project Water Lease herein authorized.

(d) The Community and the Secretary shall lease to the City of Phoenix, for a term commencing on January 1, 2001, and ending December 2099, for consideration in an amount agreed to by the Community and the City to be paid by the City to the Community, upon those reflected in the Project Water Lease set forth in exhibit "20.2.2" to the Agreement, the four thousand three hundred acre-feet of CAP water to which the Community is entitled under the Community CAP Delivery Contract. The Project Water Lease shall specifically provide that—

(1) the City of Phoenix, in accordance with its obligations under the Project Water Leases, shall pay all operation, maintenance and replacement costs of such water to the United States, or, if directed by the Secretary, to the CAWCD: *Provided*, That such

payments shall not be commenced earlier than October 1, 1989;

(2) except as otherwise provided in the Project Water Lease, the City of Phoenix shall not be obligated to pay water service capital charges or municipal and industrial subcontract charges or any other charges or payment for such CAP water other than the operation, maintenance, and replacement costs and lease payments as set forth in this subsection.

(e) For the purpose of determining the allocation and repayment of costs of the CAP as provided in Article 9.3 of Contract Numbered 14-08-W-245 shall be United States of America and the CAWCD dated December 15, 1972, and any amendment or revision thereof, the costs associated with the delivery of CAP water pursuant to the Project Water Lease referred to in subsection (d) shall be nonreimbursable, and such costs shall be excluded from CAWCD's repayment obligation.

(f) Notwithstanding any other provision statutory of or common law, the Community may, with the approval of the Secretary, lease water provided to the Community under section 406 of this Act for its fair market value for a term not to exceed 100 years as provided in the Agreement but in no event for use outside Pima, Pinal or Maricopa Counties, State of Arizona. If some or all of the water provided to the Community under section 406 of this Act is CAP water, the provisions of subsections of (a), (b), (c), (d), and (e) of this section 407 shall apply to any lease of such water.

(g) Except as authorized by this section, no water made available to the Community or its members pursuant to the Agreement may be sold, leased, transferred, or in any way used off the Community's reservation.

(h) If water is acquired from the Salt and Verde watershed pursuant to section 406(a)(3), no such water may be sold, leased, transferred, or in any way be used off of the Community's reservation.

TITLE XIII

Sec. 1301. This Act may be cited as the "Clarks Fork Wild and Scenic River Designation Act of 1990".

SEC. 1302 DESIGNATION OF RIVER.

Section 3(a) of the Wild and Scenic Rivers Act (16 U.S.C. 1274(a)), as amended, is further amended by adding at the end the following:

"( ) CLARKS FORK, WYOMING.—(A) The twenty and five-tenths-mile segment from the west boundary of section 3, township 56 north, range 108 west at the Crandall Creek Bridge downstream to the north boundary of section 13, township 56 north, range 104 west at Clarks Fork Canyon; to be administered by the Secretary of Agriculture as a wild river. Notwithstanding subsection (b), the boundary of the segment shall include all land within four hundred and forty yards from the ordinary high water mark on both sides of the river. No land or interest in land may be acquired with respect to the segment without the consent of the owner thereof. For the purposes of carrying out this paragraph, there is authorized to be appropriated \$500,000 for development and \$750,000 for the acquisition of land and interests therein.

"(B) Designation of a segment of the Clarks Fork by this paragraph as a component of the Wild and Scenic Rivers System shall not be utilized in any Federal proceeding, whether concerning a license, permit, right-of-way, or any other Federal action, as a reason or basis to prohibit the development or operation of any water impoundment, diversion facility, or hydroelectric power and transmission facility located entirely downstream from the segment of the river designated by this paragraph. Provided that water from any development shall not intrude upon such segment. Congress finds that development of water impoundments,

diversion facilities, and hydroelectric power and transmission facilities located entirely downstream from the segment of the river is not incompatible with its designation as a component of the Wild and Scenic Rivers System.

"(C) The Secretary of Agriculture is directed to apply for the quantification of the water right reserved by the inclusion of a portion of the Clarks Fork in the Wild and Scenic Rivers System in accordance with the procedural requirements of the laws of the State of Wyoming: Provided, That, notwithstanding any provision of the laws of the State of Wyoming otherwise applicable to the granting and exercise of water rights, the purposes for which the Clarks Fork is designated, as set forth in this Act and this paragraph, are declared to be beneficial uses and the priority date of such right shall be the date of enactment of this paragraph.

"(D) The comprehensive management plan developed under subsection (d) for the segment designated by this paragraph shall provide for all such measures as may be necessary in the control of fire, insects, and diseases to fully protect the values for which the segment is designated as a wild river."

The SPEAKER pro tempore. Is a second demanded?

Mr. RHODES. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Minnesota [Mr. VENTO] will be recognized for 20 minutes, and the gentleman from Arizona [Mr. RHODES] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Minnesota [Mr. VENTO].

Mr. VENTO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 2570 is the Arizona wilderness bill sponsored by the distinguished gentleman from Arizona [Mr. UDALL] chairman of the Interior Committee. It passed the House in February of this year. It has now come back from the Senate with a long list of unrelated measures attached. Some of these are identical to bills that the House has already passed separately, and we are prepared to accept those additions.

Other additions made by the Senate, however, are not acceptable in their present form, and we are proposing to either revise those or to delete them from this bill, and return the resulting leaner package to the Senate, with the hope that they may be able to complete action on it promptly.

We are adding one item relating to the take pride in America bill earlier passed by the Senate.

Mr. RHODES. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this bill, H.R. 2570, contains several titles which consist of original individual bills that previously had been passed by both the House and the Senate. It includes an Indian water rights settlement in the State of

Arizona, the designation of some 2 million acres-plus as wilderness in the State of Arizona and various other projects, Civil War studies and so forth in various parts of the United States, mostly in the West.

This is a bill which we normally would not bring to the floor under these circumstances and in this form, but we all know what time it is. We all know what day it is. In order for these projects, which are very important to individuals in various districts in the rest of the country, it is necessary for us to bring this bill in this form.

Mr. Speaker, I urge my colleagues to support H.R. 2570.

Mr. Speaker, I yield 2 minutes to the gentleman from Idaho [Mr. CRAIG].

Mr. CRAIG. Mr. Speaker, I thank my colleague for yielding me this time.

Mr. Speaker, this bill of collective issues and important legislation that has moved through the Interior Committee has, as has been mentioned by the chairman of the Public Lands Subcommittee, several pieces of legislation that are very critical and have been worked on for a good number of days and in some instances months, the Take Pride Program that has come over from the Senate, the Levin legislation dealing with a land exchange problem, and also I think it is important to understand that we have been trying to work out the differences that deal and the failure that the Pix-Sloan and Cedar Bluff Program is not in this legislation.

I must say that Senator DOLE is very concerned about this. The problem at this late hour with the failure to include some of this legislation is that it will have to be placed back in the Senate. I hope the chairman understands the complications of doing that at this late hour may well spell the doom of this legislation. I hope that will not be the case.

Mr. VENTO. Mr. Speaker, will the gentleman yield?

Mr. CRAIG. I yield to the gentleman from Minnesota.

Mr. VENTO. Mr. Speaker, I appreciate the gentleman's concern. The gentleman has been working hard this evening to clear this bill, and I appreciate his work and his patience and that of other Members who have worked on this.

I hope that we can resolve the issue dealing with the measure that the gentleman is referring to.

Mr. RHODES. Mr. Speaker, I yield myself such time as I may consume.

I would like to say, Mr. Speaker, that I likewise appreciate very much the hard work the gentleman from Idaho [Mr. CRAIG] has put in on this bill tonight, and I appreciate his willingness to allow us to send it back to the Senate so that the Senate can work its will.

It is my understanding now that the chairman of the subcommittee would

like to enter into a colloquy with the gentleman from Wyoming, so I will reserve the balance of my time.

□ 0020

Mr. VENTO. Mr. Speaker, I yield such time as he may consume to the gentleman from Wyoming [Mr. THOMAS] for the purpose of a colloquy.

Mr. Speaker, if the gentleman would yield, I have some questions.

Mr. THOMAS of Wyoming. I would be glad to yield to the gentleman to engage in a colloquy on the Clark's Fork Road Wild and Scenic River.

Mr. VENTO. Does the gentleman agree that unless the United States acts to subject itself to a State procedure to quantify a Federal reserved water right, it is not required to do so?

Mr. THOMAS of Wyoming. Yes, that is right.

Mr. VENTO. And the McCarran Act amendment, an act of Congress, provides one way for that to occur?

Mr. THOMAS of Wyoming. Yes, that is correct.

Mr. VENTO. Am I right that the language here about quantifying the Clark's Fork Federal reserved right provides for the United States to act to start a quantification procedure under Wyoming law by application to be filed with the State engineer, which would also be an act of Congress?

Mr. THOMAS of Wyoming. That is my understanding.

Mr. VENTO. But this title would still permit the United States to act to perfect its water right by appeals from the State engineer's decision?

Mr. THOMAS of Wyoming. That is correct.

Mr. VENTO. I appreciate the gentleman's responses. It is a key part of the understanding in passing this measure. And I appreciate the gentleman yielding.

Mr. VENTO. Mr. Speaker, I have no further requests for time. This is an important measure. It represents a lot of work by the committee. It is a major act, one more crown jewel in the crown of, I think, one of the greatest conservationists who ever served in this body, Mo UDALL.

Mr. Speaker, I yield back the balance of my time.

Mr. RHODES. Mr. Speaker, I urge passage of H.R. 2570.

Mr. UDALL. Mr. Speaker, I rise with great pleasure and considerable relief in support of H.R. 2570, the Arizona Desert Wilderness Act.

As I told the House earlier this year when we passed this bill and its companion, H.R. 2571, the Arizona Refuge Wilderness Act, the bill is the product of years of hard work. It is a bipartisan compromise, but it meets my standards for an acceptably aggressive wilderness bill.

I won't belabor the RECORD with a rendition of the bill's provisions. Indeed, the bill is hardly changed at all from the work of the House insofar as actual wilderness designations are concerned. The one exception is the

establishment of a new and, in my opinion, very unfortunate boundary for the Upper Burro Creek Wilderness.

What has changed from the House bill is a rather strange cascade of water-related amendments that I am compelled to address for the RECORD. These unconstructive amendments are a grab bag of what some in the other body think the bill does not do with regard to water rights and water developments. These provisions have no practical effect, are unnecessary and do nothing at all to improve the legislation. In all instances, these amendments mirror existing law and/or practical facts of geography—they are essentially without effect.

Nonetheless, they are here and I want to take care that they are not erroneously interpreted as changing existing law. I would therefore like to clarify for the RECORD the scope of the following amendments and our intent in accepting them:

#### ALAMO DAM

(1) ALAMO DAM.—Nothing in this title shall be construed to impair or conflict with the implementation of the authorization contained in section 304(f) of Public Law 90-537, approved September 30, 1968.

The Alamo Dam is located upstream of two areas that are designated wilderness by this act: Swansea and Rawhide Mountains. The Senate added a provision to clarify that in so designating these areas, Congress does not intend to modify the existing authority of the Corps of Engineers to operate Alamo Dam for flood control purposes. The flood control operations of Alamo Dam have not impaired the wilderness values of Swansea and Rawhide Mountains so far, and it is our belief that continuation of those operations will not have a detrimental effect on their wilderness values in the future.

However, this section should not be interpreted as a direction to the Secretary of the Army to ignore downstream values when operating the dam for flood control purposes. Congress intends that the Secretary of the Army give consideration to downstream environmental values, including wilderness and riparian resources, in exercising his authority.

#### EFFECT ON PUBLIC LAW 90-537

(5) Nothing in this title shall be construed to impair or conflict with the implementation of the authorization contained in section 304(f) of Public Law 90-537, approved September 30, 1968.

Public Law 90-537 authorizes New Mexico to use 18,000-acre feet of water from the Gila River. The language added by the Senate merely provides assurance to New Mexico that this act is not amending or repealing the authorization in Public Law 90-537. I want to make clear that this amendment is not intended to expand that earlier authorization in any way. In addition, the amendment is not in any way a denial or limitation of the water right reserved for the Gila Box National Riparian Conservation Area.

#### NO WATER RIGHT ON COLORADO RIVER

(b) With respect to the Havasu and Imperial Wilderness Areas designated by subsections (a)(1) and (a)(2) of this title, no rights to water of the Colorado River are reserved, either expressly, impliedly, or otherwise.

The Senate added a number of provisions regarding this bill's lack of effect on the Colorado River, its waters, compacts relating to it and the operation of federally operated dams on the river. They are utterly unnecessary, as none of the areas designated as wilderness include any portion of the main stem of the Colorado River within their boundaries.

The wilderness areas designated within the Imperial and Havasu National Wildlife Refuges were specifically drawn above the historic high water mark of the river. Even without inclusion of special language, it is perfectly clear that no Federal water right is being established on the Colorado River. Once again, language has been included to provide comfort and assurance. And, once again, unnecessary language offers an opportunity for misinterpretation.

Although neither of these areas include any portion of the Colorado River, they both have water that arises within and flows through them in the form of seeps and springs. This disclaimer about a water right for the Colorado in no way affects the Federal water rights to these seeps and springs within the area, nor should this language be interpreted to diminish the scope or draw into question the existing Federal water right for the Havasu and Imperial National Wildlife Refuges, whose boundaries do include the Colorado River.

This provision also should not be construed to question the fact that other Federal designations that overlap the Colorado do have implied Federal reserved water rights. For example, the Grand Canyon National Park and Canyonlands National Park, which both straddle the Colorado River, have implied Federal reserved water rights which date back to their establishment.

In sum, this amendment has no practical effect, and thus has no real legal effect. It is, and should be clearly understood as, nothing more or less than redundant reassurance of the self-evident—that establishing a wilderness in the general geographic vicinity of the Colorado River does not establish a Federal reserved water right to the Colorado River.

#### NO EFFECT ON COLORADO RIVER DAMS

(e) **NO EFFECT ON COLORADO RIVER DAMS.**—Nothing in this title shall be construed to affect the operation of federally owned dams located on the Colorado River in the lower basin.

As with the amendment regarding no Federal water rights on the Colorado River, this amendment has no legal or practical effect. No portion of the Colorado River is included within wilderness areas designated by this act. It is therefore obvious on the face that these wilderness designations would not affect any federally owned dams on the Colorado River. Again, the boundaries of the wilderness areas were specifically drawn above the historic highwater mark to avoid any conflict with operation of dams on the Colorado River. This section is meaningless and unnecessary, but harmless in the context of this specific wilderness legislation.

#### NO EFFECT ON UPPER BASIN

Nothing in titles I, II, or III of this act shall amend, construe, supersede, or preempt any State law, Federal law, interstate compact, or international treaty pertaining to the Colorado River (including its tributaries) in the upper basin, including, but not

limited to, the appropriation, use, development, storage, regulation, allocation, conservation, exportation, or quality of those waters.

This language may represent a new standard in the unnecessary. We have already stated that none of these designations are establishing a Federal water right on the Colorado River. Furthermore, none of these designations are within the upper basin of the Colorado River and therefore it is inconceivable that this legislation could have any possible impact on the upper basin States, their laws or their compacts. Even a cursory examination of the facts or of the geography would lead one to this conclusion.

Although this disclaimer is patently absurd in this context, and has no effect, either harmful or beneficial, I find its inclusion to be very disturbing. This provision leads the list of five sections added by the Senate whose sole purpose is to declare what the bill does not do. In each case, the clarification is utterly unnecessary, yet opens the door to the possibility of some future court or administrator acting on the theory that Congress must have meant something by incorporation of these amendments and act to apply them in some entirely inappropriate way.

Might, for example, a court wonder whether by specifically exempting a river which is nearby a wilderness area from any claims of a Federal water right, did Congress imply that without such specific exemptions a wilderness area could claim a Federal water right on a river outside of the boundaries of that wilderness area?

Mr. Speaker, this abandonment of legislative discipline is of great concern to me and if the 101st Congress had sufficient time remaining I would work hard to have this worthless provision stripped from this bill. But the greater interest today lies in passing this very important legislation and trusting that future courts, administrators, and legislators will put as much stock in these amendments as they deserve.

And so that I might close on a more positive note, Mr. Speaker, I would like to conclude by restating my remarks on this floor when the House passed H.R. 2570 on February 28.

I said then that each generation has its important tasks to complete. The generations of Udalls before me met their challenge to tame the wilderness, to settle it, and make it a home for succeeding generations. But the challenge of our generation is different. We must show ourselves capable not only of conquering nature but also of caring for it. We must show that we consider ourselves not only masters of our world, but also its willing dependents. It is important that those who come after us know that we cherished these living deserts, their waters, and all the life that regenerates itself there season after season, generation after generation. In wilderness, we value that which man did not create and by restraining man's altering hand, we hope to honor this powerful work.

Long after our own footsteps have been forgotten, these places will remain. Their eloquent stillness will bear testimony that we as a people are grateful for our chance to walk upon this Earth and that we have the strength,

the courage, and the wisdom to leave at least these places as we found them.

Mr. THOMAS of Wyoming. Mr. Speaker, I am pleased with the approval of the Clarks Fork Wild and Scenic River Act in this the year of Wyoming's centennial celebration.

This issue has been debated since 1978 when the Forest Service first gave notice that a study was to begin. The final environmental impact statement, completed in February 1979, recommended a 21.5-mile section for wild and scenic designation and legislation was introduced in Congress on September 13, 1982, formally nominating it. By law, Congress had 3 years to act but did not do so. The delegation put the nomination on hold until a clear decision could be made about the proposed water projects affecting this stretch of the river. In August 1988, Governor Sullivan called for a Federal wild and scenic designation subject to certain conditions with regard to water.

Clarks Fork originates in Montana, swings down into Wyoming and then pours into the Yellowstone River which heads back up into Montana. In their final environmental impact statement, the Forest Service recommended a 21.5-mile segment of the river for designation. But to ensure that a downstream dam would not back water up into the wild and scenic designation, the Governor shortened the proposed stretch.

The bill provides funds for purchasing land, or interests in land, but only on a willing buyer/willing seller basis.

We worked hard to come up with legislation that would ensure that those values which make the Clarks Fork so remarkable would be protected for the enjoyment of future generations.

Again, Mr. Speaker, it is particularly fitting that we include the Clarks Fork in the wild and scenic system in the same year the State celebrates its 100th birthday.

Mr. RHODES. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. ECKART). The question is on the motion offered by the gentleman from Minnesota [Mr. VENTO] that the House suspend the rules and concur in the Senate amendment with an amendment.

The question was taken; and (two thirds having voted in favor thereof) the rules were suspended and the Senate amendment was concurred in with an amendment.

A motion to reconsider was laid on the table.

#### FOR THE RELIEF OF LEROY W. SHEBAL OF NORTH POLE, AK

Mr. VENTO. Mr. Speaker, I ask unanimous consent that the Committee on Interior and Insular Affairs be discharged from further consideration of the Senate bill (S. 820) for the relief of Leroy W. Shebal of North Pole, AK, and ask for its immediate consideration in the House.

The Clerk read the title of the Senate bill.
