Subject: San Pedro Riparian NCA - Official Map & Description

A memo dated December 6, 1988, transmitted a legal description and map to the Director (320 - Lands).

Carol Kershaw discovered the "author's" copy of the memo while searching through a box of Archibald's papers for information on an old case the other side of the State. Since this is the author's copy, we do not have the attachments. I am willing to accept the 10/89 map put together by Steve Meszaros and the final description sent in from Safford DO as the proper attachments; at least they agree with each other.

Rather than continuing to re-invent the wheel, I'll put together a few sets of the SO-WO memo, map, and legal descriptions and send a set to WO240, WO350, Safford, Tucson, Sierra Vista and the Serialized Case file in SO Records.
