

TABLE OF CONTENTS

	<u>PAGE</u>
LIST OF TABLES	ii
LIST OF FIGURES	ii
APPENDICES	iii
CHAPTER 1: INTRODUCTION	1-1
1.1 BACKGROUND	1-1
1.2 HISTORY OF PROCEEDINGS	1-1
1.3 SCOPE OF REPORT	1-4
CHAPTER 2: CONCEPTS	2-1
2.1 INTRODUCTION	2-1
2.2 CONCEPTUAL MODELS FOR THE SAN PEDRO RIVER WATERSHED AND SUBFLOW ZONE	2-1
2.2.1 Geologic Units	2-2
2.2.2 Hydrogeologic Concepts	2-4
2.3 LIMITATIONS ON WHAT CONSTITUTES SUBFLOW	2-6
2.3.1 Inclusion of Certain Hydrogeologic Units	2-6
2.3.2 Prohibitions on Certain Geologic Units	2-8
2.3.3 Delineating Floodplain Holocene Alluvium	2-9
CHAPTER 3: METHODS	3-1
3.1 TASK 1 – DEVELOP BASE MAPS	3-3
3.1.1 Develop Surface Geology Base Maps	3-3
3.1.2 Develop Floodplain Holocene Alluvium Base Maps for Each Analysis Area	3-4
3.2 TASK 2 – COLLECT DATA AND PERFORM ANALYSES AND ASSESSMENTS FOR ANALYSIS AREAS AND SUBAREAS	3-5
3.2.1 Select Analysis Areas and Subareas	3-5
3.2.2 Collect Data and Synthesize Information	3-5
3.2.3 Analyze Topographic Cross-Sections	3-6
3.2.4 Analyze Water Level Elevations	3-9
3.2.5 Assess Riparian Vegetation	3-11
3.2.6 Construct River Mile Summary - Analysis Tables	3-12
3.3 TASK 3 – DELINEATE LATERAL EXTENTS OF FHA AND SUBFLOW ZONES	3-12
3.3.1 Delineate FHA for Each Analysis Area or Subarea	3-13
3.3.2 Assemble FHA Delineations in Analysis Subareas into Analysis Areas	3-14
3.3.3 Apply Setbacks for Each Analysis Area	3-14

PAGE

3.3.4 Assemble Analysis Subarea Subflow Zone Delineations
for the Entire Watershed 3-14

CHAPTER 4: RESULTS 4-1

4.1 BASE MAP DEVELOPMENT 4-1

4.2 DATA COLLECTION AND ANALYSIS 4-1

4.2.1 Analysis of Topographic Cross-Sections..... 4-2

4.2.2 Analysis of Water Level Elevations 4-3

4.2.3 Assessment of Riparian Vegetation Growth..... 4-4

4.3 FHA DELINEATION AND APPLICATION OF SETBACKS 4-4

4.3.1 Delineation of the Lateral Extent of Floodplain Holocene
Alluvium 4-4

4.3.2 Application of Setbacks 4-6

TABLES
(Follows Tab)

Table 3-1 Delineation Methodology Project Work Tasks

Table 3-2 Analysis Areas for Comprehensive Watershed Methodology

Table 3-3 Surface Geology Base Map Units and Age and Naming Conventions

Table 3-4 Template for River Mile Summary – Analysis Tables

Table 4-1 Findings of Preliminary Topographic Cross-Section Analysis for Sample Subarea

FIGURES
(Follows Tab)

Figure 2-1 Geologic Units and Hydrogeologic Concepts

Figure 3-1 San Pedro River Watershed General Location Map and Analysis Areas

Figure 4-1 Geology Base Map for Preliminary Analysis of Sample Subarea

Figure 4-2a FHA Base Map for Preliminary Analysis of Sample Subarea

Figure 4-2b FHA Base Map for Preliminary Analysis of Sample Subarea Plotted on Aerial
Imagery

Figure 4-3 Location of Selected Cross-Sections for Preliminary Analysis in Sample
Subarea

Figure 4-4 Significance Check of Observed Slope Breakpoint for Preliminary Analysis of
Sample Subarea

Figure 4-5 Cross-Section 82A for Preliminary Analysis in Sample Subarea

Figure 4-6 Cross-Section 83B for Preliminary Analysis in Sample Subarea

Figure 4-7	Cross-Section 85A for Preliminary Analysis in Sample Subarea
Figure 4-8	Cross-Section 88A for Preliminary Analysis in Sample Subarea
Figure 4-9	Cross-Section 88B for Preliminary Analysis in Sample Subarea
Figure 4-10	Cross-Section 89A for Preliminary Analysis in Sample Subarea
Figure 4-11	Cross-Section 90A for Preliminary Analysis in Sample Subarea
Figure 4-12a	FHA Extent Correlated to Topography for Preliminary Analysis in Sample Subarea
Figure 4-12b	FHA Extent Correlated to Topography for Preliminary Analysis in Sample Subarea Plotted on Aerial Imagery
Figure 4-13a	Preliminary Water Level Analysis for Sample Subarea
Figure 4-13b	Preliminary Water Level Analysis for Sample Subarea Plotted on Aerial Imagery
Figure 4-14a	Preliminary Riparian Analysis for Sample Subarea
Figure 4-14b	Preliminary Riparian Analysis for Sample Subarea Plotted on Aerial Imagery
Figure 4-15a	Lateral Extent of FHA for Preliminary Analysis in Sample Subarea
Figure 4-15b	Lateral Extent of FHA for Preliminary Analysis in Sample Subarea Plotted on Aerial Imagery
Figure 4-16a	Application of Setbacks for Preliminary Analysis in Sample Subarea
Figure 4-16b	Application of Setbacks for Preliminary Analysis in Sample subarea Plotted on Aerial Imagery

APPENDICES
(CD-ROM - Follows Tab)

APPENDIX A: COURT DOCUMENTS

A-1	1993 Gila II Decision
A-2	1993 ADWR Technical Report
A-3	1994 ADWR Memorandum (Cullom)
A-4	1994 Transcript Excerpt (Erb)
A-5	1994 Subflow Order
A-6	2000 Gila IV
A-7	2004 Subflow Recommendations
A-8	2005 Subflow Order
A-9	2012 Transcript Excerpt
A-10	2012 Order

APPENDIX B: GEOLOGY BASE MAPPING FOR THE SAN PEDRO RIVER WATERSHED
(Map Sheets 1 through 6)
