ADJUTANT-GENERAL'S OFFICE,
Washington, D. C., October 1, 1901.

WAR 1901—VOL. I, PT. II. (To face page 64—2)

Enlisting troops at camps, on route, recruits, etc.

H. C. GARRIS,
Adjutant-General, Major-General, U. S. A.

The departments of Cuba were consolidated Nov. 15, 1900, and merged with the Department of the Philippines on Oct. 20, 1900. The strength shown from December, 1900, is of the Department of Porto Rico. The strength shown from January, 1901, is of the Department of Porto Rico. One company remained at the kin as legation guard.

Troops in the "District of Porto Rico" are not included.

DEEP WELLS.

Authority has been given during the fiscal year for the sinking of wells at—

Water, sewer, and plumbing repairs and improvements of various character have been authorized during the year at posts throughout the country.

Electric wiring has been installed in buildings at the new seacoast posts with view of lighting same from the fortification plants.

At Forts Monroe, Preble, Banks, Key West Barracks, Jackson Barracks and general hospital, and Washington Barracks, D. C., electric current is purchased for lighting purposes.

All necessary repairs to and installation of heating plants at the different posts have been duly made, and at general hospital, Hot Springs, Ark., extensive overhauling of plumbing and heating plants has been under way, as well as new installations. An electric plant and laundry have also been provided.

Requisite repairs to heating, lighting, plumbing, and laundry of general hospital, Presidio, have been made.

While the appropriations of the department have not been sufficient to meet in full the many calls from various posts throughout the country for water, sewer, plumbing, lighting, and heating improvements, repairs, etc., all reasonable and absolute requirements, after careful study and consideration, have been fully and promptly met.

The various expenditures made through this branch of the office will be found of record among the tables and totals given in report of the construction and repair division, to which attention is invited.

quarters, all in fair condition, but, like the hastily constructed wooden buildings of Missoula, have foundations which show considerable decay and will soon be in need of repair. Very little money will be required to place all barracks and quarters in condition for occupancy, nor will expenditure of much money be required upon other post buildings. The allotment of \$2,300 which was granted for repair for the present fiscal year has been nearly all expended and little more will be required. The 2 cavalry stables, intended to shelter 70 animals each, should each be extended some 30 feet in length. They are of very cheap construction and the cost of extension would be very slight. I found that work was about to be recommenced upon the new hospital and the water supply, to be prosecuted in accordance with contracts awarded some time since. The post will be required for some time in the future, if the cavalry ordered into the department is maintained in it. The water supply at present is abundant for all purposes except for irrigation, the water being pumped direct from the Yellowstone River. Artesian water is supplied for drinking purposes. Very little money will be required to maintain this post for two or three years in the future. No expensive extended repair should be attempted, as the old buildings are not in condition to warrant it.

Very respectfully,

E. S. OTIS,
Major-General, Commanding.
