SUBJECT: WATER WELL DATA REVIEW AND FIELD LOCATION

THIS OFFICE WAS TASKED TO REVIEW EXISTING DATA PERTAINING TO WATER WELLS ON FORT HUACHUCA AND TO PERFORM FIELD RECONNAISSANCE TO VERIFY THEIR LOCATION.

THE ATTACHED DATA REPRESENTS THE RESULTS OF OUR INFORMAL SURVEY CONDUCTED BY VISITING ALL WELL SITES AND PLOTTING THEIR LOCATIONS ON LOCAL MAPS TO DETERMINE THEIR APPROXIMATE POSITION.

THERE WERE SEVERAL "LOCAL NAME" CHANGES; THE CORRECTED NAMES WERE TAKEN FROM THE "INVENTORY OF WATER USES" REPORT THAT YOU SUPPLIED. ALSO, THERE WERE SEVERAL "LATITUDE AND LONGITUDE" CORRECTIONS BASED ON OUR FIELD RECONNAISSANCE.

ALL OTHER DATA FIELDS APPEAR TO BE CORRECT. WE INCLUDED UTM NORTHING AND EASTING DATA.

WE CHOSE NOT TO DO FORMAL SURVEYS BECAUSE THE WELLS WERE INACCESSIBLE, AND FROM YOUR DIRECTIONS, THAT ACCURACY WAS NOT REQUIRED.

IF WE CAN BE OF FURTHER ASSISTANCE, PLEASE FEEL FREE TO CALL US.

Dear Well Owner:

This letter is to acknowledge that your recent request (as indicated below) has been accomplished and our records have been changed to reflect the same.

Change in OWNERSHIP of the land on which the well is located

NAME CHANGE and/or ADDRESS CHANGE

CORRECTION of legal description as to the location of the well

Change in WELL DATA, such as the pump capacity

Additional use of the water, or changing the use of water, OUTSIDE of an Active Management Area, or Irrigation Non-Expansion Area

Change of well driller, PRIOR to drilling the well

Thank you for complying with A.R.S. § 45-593.C.

Sincerely,

A handwritten signature in cursive script that reads "Rosemary Lopez".

FIFE SYMINGTON
Governor

RITA P. PEARSON
Director

Dear Well Owner:

The Department of Water Resources is required to maintain current records of all water production, monitor, piezometer and exploration wells within the state. The requirement is based on several laws found in the Arizona Revised Statutes and several rules which are contained in the Arizona Administrative Code and which have the force and effect of law.

These laws and rules have been put into force to protect the quality and quantity of Arizona's groundwater and to protect the rights of persons who have complied with requirements to obtain the right to use groundwater. As changes in the laws, rules, uses and users of groundwater occur, the records of the Department must be updated. In most cases, it is up to the well owner/water user to provide the new information.

Forms are available for your use to inform the Department of a variety of changes and/or corrections you wish made to your well registration file. **THERE IS NO CHARGE FOR THIS SERVICE.**

There are several changes that are routinely made to well registration files. You may wish your well registration file updated to reflect one of the changes listed below:

- Change of Address
- Change of Ownership
- Change of Legal Description
- Well has been capped
- Well was abandoned prior to June 18, 1990
- Well is to be abandoned

We have enclosed a form for updating your well registration file. If it reflects the correct change that you wish made to your well registration file, please complete and return the form. If this is not the correct change you wish to make, please call us at (602) 542-1581, or write to us at the above address.

For your convenience, the back of this letter contains a definition for each category of change listed above. In deciding what is the correct change you wish made to your well registration file, please consult the definitions.

Sincerely,

Bruce S. Davis
Chief, Operations Division

USF200003046

DEFINITIONS

An open well is a clear and present danger to humans, domestic animals and wildlife. It is also a direct conduit for contamination to be introduced to the underlying aquifer.

To protect groundwater supplies and minimize safety hazards, certain laws and rules have been enacted concerning minimum construction standards for wells and how wells must be protected when not in use. The following is a brief summary of some of those requirements. For more detail, please consult the appropriate statute or rule.

Change of Address: The current mailing address of the owner of the well is now different from the address listed in the well registration file.

Change of Ownership: The land where the well is located has been sold or otherwise transferred to a new owner.

Change in Legal Description: The original legal location used to register the well has been determined to be incorrect, or the original location was incomplete. A complete legal description locates a well to a ten-acre-site and is expressed by quarter, quarter, quarter, section, township and range.

Open Well: A well that is not equipped with a pump or is not properly capped. The owner of an open well shall either install a cap on the well in accordance with R12-15-822 or abandon the well in accordance with R12-15-816.

Abandoned Well: A.A.C. R12-15-816. A well that has been filled to within twenty feet of the land surface with clean fill or bore cuttings and the top twenty feet has been filled with cement. Well abandonment shall be performed only by a licensed well drilling contractor. The owner of a well shall file a notice of intent to abandon the well prior to abandonment on a form prescribed and furnished by the Director. Abandonment may commence only if the driller has possession of an abandonment card at the well site. The owner or operator of the abandoned well shall notify the Department, on the appropriate form, no later than thirty (30) days after abandonment has been completed.

Capped Well: A.A.C. R12-15-822. A well that has had a tamper-resistant, water-tight steel plate of at least one-quarter inch thickness welded to the top of the casing by the electric arc method of welding. Every capped well with casing four inches in diameter or larger shall be equipped with a functional access port with a minimum diameter of one-half inch, so that the position of the water level or pressure head in the well can be monitored at all times. Within five days of capping the well, the owner of the well shall file with the Department a notice of well capping on a form approved by the Director.

Statements such as "well out of service" or "well not in use" have no meaning in the context of capped, abandoned or open wells. Such terms can only refer to a well that has a pump in it and is not being used.

For additional information about capping or abandonment, call the Operations Division at (602) 542-1581.

MEMORANDUM THRU

ATZS-EHR, Mr. Stynes
ATZS-EHB, Mr. Cochran
ATZS-EH, Mr. Thompson

FOR ATZS-EHE, Mr. Bishop

SUBJECT: Metering of Water Production and Effluent Discharge Points

1. Reference Work Order MKAU06560P (Encl 1) and Work Request Status (Encl 2).
2. The above work order requests the repair and/or replacement of well production water meters. This work order should be expanded to include the installation of meters on the effluent discharge points, i.e., to the new Chaffee Field, the East Range, and the effluent from Sewage Plant #2 to Sewage Plant #1. (Note: the effluent from Sewage Plant #1 to the golf course is currently metered.)
3. This work order should be given the highest priority possible in lieu of the on-going adjudication process on the post's water rights. It will become increasingly important that the post be able to provide documented water production and use of effluent to the courts. Much of our current information is based on estimates. This course of action would be in the best interest of the government.
4. Point of contact is the undersigned at extension 3-1864/3.

Facilities Engineering.

- b. SERIAL NUMBER (cc 7-11) — Enter the sequential number assigned by the requesting agency.
- c. FACILITY NUMBER (cc 14-19) — Enter the number of the facility for which the work is requested. (Note: If the request involves more than one facility, enter the additional facility numbers and suffixes in cc 66-74 on XFA and in cc 14-76 on XFB.)
- d. FACILITY SUFFIX (XFA cc 20-22 & 72-74; XFB cc 20-22, 29-31, 38-40, 47-49, 56-58, 65-67 & 74-76) — As appropriate, enter the suffix for the facility involved.
- e. DATE (cc 23-28) — Enter the year, month, and day of the request.
- f. OTHER FUND CITATION (cc 29-38) — Enter the appropriate costing code if work is reimbursable.
- g. DESCRIPTION OF WORK — Describe the requested work in sufficient detail that its scope and nature can be fully recognized. Briefly mention associated environmental considerations (reference AR 200-1). Include or attach sketches as appropriate.
- h. WORK REQUIREMENT — Specifically state why the work is required. State the precise effect if the work is not accomplished.
- i. REQUESTOR INFORMATION — Name and rank, if appropriate, organizational element, telephone number and signature of the requesting official authorized by the Director of Facilities Engineering to request work.
- j. ADDITIONAL INFORMATION — Name and rank, if appropriate, organizational element and telephone number of the individual directly interested in and familiar with the work requested.

2. DIRECTORATE OF FACILITIES ENGINEERING —

- a. Accomplish the following portions of XFA; forward the green copy to keypunch and maintain blue copy as suspense file copy.
 - (1) CHANGE (cc 4) — Enter change code as appropriate.
 - (2) FY (cc 12) — Enter the last digit of the current fiscal year.
 - (3) TYPE (cc 13) — Enter the type of work code: P - Special Project; S - Standing Operations Order; J - Individual Job Order.
 - (4) SHORT JOB DESCRIPTION (cc 39-65) — Enter short job description based on description of work.
- b. FORWARD FOR APPROVAL BLOCK — Complete portions of this block including annotation of environmental impact portion. Forward pink copy and white (original) to the approval authority in accordance with prescribed procedures (reference AR 420-17).

3. APPROVAL AUTHORITY — Complete the following portions of XFC and return pink copy and white (original) to the Directorate of Facilities Engineering.

- a. ACTION TAKEN (cc 14) — Circle "A" indicating approval or "D" indicating disapproval.
- b. DATE (cc 15-18) — Enter the month and day approval/disapproval action was taken.
- c. SIGNATURE OF APPROVAL AUTHORITY — Self-explanatory.

4. DIRECTORATE OF FACILITIES ENGINEERING — As appropriate, complete "FORWARDED TO" cc 19-26, transaction XFC; forward pink copy to keypunch and file white (original) in job folder.

MEMORANDUM FOR Commander, U.S. Training and Doctrine Command
 ATTN: ATBO-GPL (Mrs. Irma Davis),
 Fort Monroe, Virginia 23651-5000

SUBJECT: Accuracy Review of the Real Property Inventory - Utilities

1. Reference 1st Indorsement, TRADOC, ATBO-GPL, 24 Mar 1993, subject as above.
2. The enclosure of the basic correspondence was reviewed for its accuracy. The unit of measure, thousand gallons per day (KG), reflects the capacity of multiple wells with the same facility number. An explanation of the facility number to number of wells is enclosed for your information.
3. Point of contact is Mr. Mike Shaughnessey, Realty Specialist, defense switching network 821-1863/1864 or commercial (602) 533-1864/1863.

FOR THE U.S. ARMY GARRISON COMMANDER:

SIGNED

Encl

STEPHEN G. THOMPSON
 Director, Engineering and Housing

MEMORANDUM FOR: SEE DISTRIBUTION

SUBJECT: Accuracy Review of the Real Property Inventory - Utilities

1. Reference: CEHSC-FM-A memorandum, dated 4 Dec 1992, Subject: Evaluation of HQIFS Real Property Inventory for Category Code Series 800 (Utilities).
2. The referenced memo and its enclosed report, highlighted work that needed to be done on the utilities inventory. This memo transmits to each addressee listings, sorted by parent installation, of data validation analyses performed against the Headquarters, Integrated Facility System (HQIFS) real property records. These analyses were performed against the September version of HQIFS.
3. These listings represent the next step in an ongoing effort to correct and maintain an accurate real property data base. In this data validation, efforts were focused on utility and utility type records, especially those measured in "KG", "MI", "SY", and "GA", which have received relatively little attention in past inventory validation efforts.
4. Addressees are requested to forward a copy of the appropriate listing to each of their installations for which reports were created, and to have their installations evaluate and correct these data as appropriate. These corrections are requested to be made by the March 93 update cycle to HQIFS if possible, and should certainly be made not later than the June 93 update. Please note that listings have been sorted by parent installation and subordinate installation.
5. It is believed that the following common errors occur:
 - a. For CATCODES measured in "KG" (thousands of gallons per day of flow), capacities being incorrectly entered in either gallons per day of flow or in gallons of volume.
 - b. For CATCODES measured in "MI" (miles), capacities being incorrectly entered in linear feet.
 - c. For CATCODES measured in "SY" (square yards), areas being incorrectly entered.
 - d. For CATCODES measured in "GA" (gallons of volume), capacities being incorrectly entered in thousands of gallons of volume.
 - e. Entries in "Current Use CATCODE" incorrect or left blank.
6. We encourage you to give this your full attention. The real property database is used to estimate installation capacity and to project maintenance

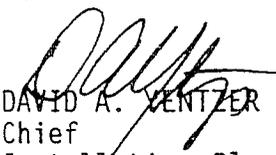

USF200003119

DAEN-ZCI, Subject: Accuracy Review of the Real Property Inventory - Utilities

costs in support of a variety of actions including BRAC. No additional actions are necessary for those entries which have already been corrected in HQIFS.

7. Please do not hesitate to call if you have any questions. My POC for this action is Ms. Carol Lytle, CEHSC-FM-A, telephone: Comm (703) 704-1567.

MEMORANDUM FOR Commander, U.S. Training and Doctrine Command
ATTN: ATBO-GPL (Mrs. Irma Davis),
Fort Monroe, Virginia 23651-5000

SUBJECT: Accuracy Review of the Real Property Inventory -
Utilities

1. Reference 1st Indorsement, TRADDC, ATBO-GPL, 24 Mar 1993, subject as above.
2. The enclosure of the basic correspondence was reviewed for its accuracy. The unit of measure, thousand gallons per day (KG), reflects the capacity of multiple wells with the same facility number. An explanation of the facility number to number of wells is enclosed for your information.
3. Point of contact is Mr. Mike Shaughnessey, Realty Specialist, defense switching network 821-1863/1864 or commerical (602) 533-1864/1863.

FOR THE U.S. ARMY GARRISON COMMANDER:
