INSTRUCTIONS - REPORT OF WATER RECEIVED FROM OTHER SOURCES

Note: If any information pre-printed on this form is incorrect, please make the needed corrections. For that information not already preprinted on this form, please follow the directions below.

Part A - Municipal

Part I - Water Received from Primary Irrigation Districts / Municipal Providers

1. If water was received from an irrigation district or a municipal provider, enter the irrigation district or municipal provider number, district or provider name, your district user or account number, and the number of acres eligible to receive surface water. If you received water from more than one irrigation district and/or municipal provider, please use additional copies of Sch. E to record the data. Do not include water received as part of a permitted, enrolled or noticed exchange agreement. Use Part III for exchanges.
2. Enter the amount of water received from the irrigation district or municipal provider by type. Enter the measurement method (metered / estimated). If it was estimated, indicate the estimation method. For volumes of water entered in the "Other" category, indicate the water type in the "Describe Other Water" column. Include ALL water you received, even if it did not directly enter your distribution system but was sent directly to storage / recharge facilities on your behalf. Total each row and enter the sum in the Total Received column.
3. Total each column by water type.
4. Total the Total Received column.

Part II - Water Received / Diverted from Sources Other Than Irrigation Districts / Municipal Providers

1. Record all water received from sources other than irrigation districts or municipal providers. Enter the Right / Permit Number of the entity supplying the water. Enter the measurement method (metered / estimated). If it was estimated, indicate the estimation method. If groundwater was received from a well, enter the DWR well number(s) (attach additional sheets if multiple wells). For volumes of water entered in the "Other" category, indicate the water type in the "Describe Other Water" column. **Include ALL water you received, even if it did not directly enter your distribution system but was sent directly to storage / recharge facilities on your behalf.**
2. Total each row and enter the sum in the Total Received column.
3. Total each column by water type.
4. Total the Total Received Column.

Part III - Water Received Pursuant to a Permitted, Enrolled or Noticed Exchange Agreement

1. Record all water received as part of a Permitted, Enrolled or Noticed Exchange Agreement. Enter the Exchange Number for each exchange.
2. Enter the measurement method (metered / estimated).
3. Enter the quantity, type, and year given for water received for which this water is payback.
4. Enter the quantity of each type of water received from each Exchange Number listed.
5. Enter the total water received from each Exchange Number listed in the Total Received column.
6. Total each column and enter the sum under Part III Total Acre-Feet Received.

If you did not send any water to be stored via an underground storage facility or a groundwater savings facility, and if no water was stored on your behalf by another entity during the calendar year, enter the sum of Schedule E, Part A, Parts I, II and III on the Summary Page, Part III. If you did store water during the year, proceed to Schedule E, Part B.
