
Environmental Workgroup

Status and Issues Report

WRDC Meeting

December 10, 2010

Status

- Workgroup Meetings (10/20, 11/10 & 12/9)
 - Focus on identifying environmental water resources and creating a statewide summary consisting of a compendium and supporting maps
 - Subcommittees
 - Environmental Conditions
 - Statewide summary of environmental conditions by basin and county – qualitative and quantitative
 - Mapping
 - Identification of data sources to map environmental conditions and help identify areas of critical concern
-

Status-Environmental Conditions

- Tabular presentation organized by groundwater basin and including:
 - Sub-basin, watershed and county
 - Environmental resource values
 - Water features and wildlife
 - Current environmental flow/volume
 - Other environmental attributes
 - Other uses
 - Future study needs
-

Status-Mapping

- Maps that display environmental conditions and are linked to the tabular summary
-

Aravaipa Canyon Wilderness
