Rattle Snake Range

Range Inspection
Report

May 20. 1938

Memorandum No 7,

Date of Inspection May 10 & 12 Rough % of range inspected 75
Concise statement of current use of Range (Show under or over-utilized areas by location and any over-concentration of stock.)

this allotment is closed to grazing being on the primitive area I have been pretty well over the entire area in the last two months, on May 10 I rode from Rattle snake cabin out to San Pedro divide and north to breaks of four mile and copper creek saw one cow track in head of pipe stem on the 12 th I visited the Juniper Spring (Administrative) pasture the pasture had been pretty well grazed out by cattle and horses put 2 head of cattle out of pasture, all other portions of the allotment is unused only by game and the feed is fine altho quite dry, a fire in parts of this area would be serious,

Salt. (Adequate? At planned salt grounds? etc.) none

Forage. Season's growth for Fa l inspections. Annuals for Spring. only a few places that show any use other than by game,

Pastures. (Current season's use of pastures, list any abused.) Juniper pasture abused by trespassers, no definate knowledge as to whom altho suspicion strong will take the matter up with them.

Condition of stock: no stock other than two cows saw in pasture

Calf crop (large or small) ---

Excess (suspected. If so why?) --

Trespass Stock (not permittee's excess.) only in pasture at juniper spring

Is range considered improving or deteriorating (cite evidences) _____
_____ area improving, _____

Worsing plans. (Followed to a reasonable degree.) _____
_____ yes _____

Any Changes needed? _____ none _____

Were any unsatisfactory conditions taken up with the permittee? If so, his reaction:
_____ unsatisfactory conditions of administrative pasture will be
_____ taken up with partys beleived to have been using the pasture. _____

Carrying Capacity: In your opinion is an adjustment needed in the permittee's preference number? (Consider Non-Use, good or bad season, suspected excess, etc.) If so what increase or decrease do you recommend.:

Non-Use: State number and season. _____ ---

No. steers seen?(Applicable only after shipping season) _____ ---

Miscellaneous:

It is beleived the Lackner outfit are responsible for the grazing of the Juniper pasture,

J.W. Gindler
Forest Ranger.
