It is hereby certified that the tracts described in this list, No. 197, are embraced in the original listson file in this Office, of lands selected by the State of Arizona, pursuant to the laws of that State, in the Phoenix land district, as indemnity for losses in the sections and townships named, which school land indemnity selections are authorized by the act of Congress cited.

It is further certified that the lands reported lost or deficient in this list and those selected in lieu thereof have been examined and compared with the township plats and tract books in this Office; that the indemnity lands claimed have been found to be properly due the townships for which they are selected, and the selected lands are shown to be subject to such selection, being surveyed public lands within the limits of the State and free from adverse claims of record. Reports have been received from the Geological Survey and from Special Agents after field investigations suggested by the Geological Survey, indicating that the selected lands are not valuable for coal or other minerals.

Executive Order No.6910 of November 26, 1934, temporarily withdrew all the vacant, unreserved, unappropriated public land in the State of Arizona from settlement, location, sale or entry in furtherance of the act of June 28, 1934 (48 Stat. 1269). This withdrawal was made subject to existing valid rights. All of the selections were filed prior to this withdrawal and are not adversely affected thereby (255 U. S. 228). Some of the selected lands were included in a grazing district, but as the selections were completed prior thereto they are not affected thereby. The selected lands are not embraced in any other subsisting withdrawal or reservation of record. Certain of the selected lands are affected by a right of way as will appear hereafter.

It is, therefore, recommended that this list, embracing 7,053.38 acres, be approved subject to any valid intervening rights existing at date of selection and subject to the provisions, reservations, conditions and limitations of Section 24 of the Federal Water Power Act of June 10, 1920, (41 Stat. 1063), as amended, as to that portion of the SW¼ SW¼ Sec. 34, T. 23 S., R. 25 E., G. and S. R. M., Arizona, lying within 50 feet of the center line of the transmission line right of way of the Phelps Dodge Corporation; but excepting and reserving to the United States rights of way over and across the lands for ditches or canals constructed by authority of the United States, as directed and required by the act of Congress approved August 30, 1890 (26 Stat. 391).

Commissioner.
