## INSTRUCTIONS - REPORT OF WATER RECEIVED FROM OTHER SOURCES

Note: If any information pre-printed on this form is incorrect, please make the needed corrections. For that information not already preprinted on this form, please follow the directions below.

### Part I - Water Received from Other Rights

1. Record all water received from other rights for use in your service area. Do include water entering your distribution system and later used for storage/recharge. (Examples include: irrigation districts, other municipal providers, and grandfathered rights.) Do not include recovered water. Do not include water delivered directly to storage/recharge facilities on your behalf. Enter the right number of the entity from which you receive water. (Example: if water was received from SRP, you would enter 57-002520.0000)
2. Enter the type of right from which you receive water. (Example: irrigation district, municipal provider, Type 2 GFR)
3. Enter the measurement method. If the volume of water was estimated, include an explanation of the estimation method on a separate sheet.
4. Enter the quantity of each type of water received from each right listed. If you receive a type of water not listed, enter the type in one of the blank boxes. If water received is groundwater, enter the DWR well number below the quantity. If the water received is in-lieu groundwater, enter the permit number below the quantity.
5. Enter the total water received from each right in the Total Received column.
6. Total the Total Received column.
7. Enter the total of each type of water received in the Total Acre-feet Received from the Other Rights row.

### PART II - Water Diverted to Recharge/Storage Facilities on the Provider's Behalf (For Use by Providers Only)

1. Record all water diverted to a storage/recharge facility on your behalf. Enter the right number of the entity from which you received water. (Example: if water was received from SRP, you would enter 57-002520.0000)
2. Enter the type of right supplying the water.
3. Enter the measurement method. If the volume of water was estimated, include an explanation of the estimation method on a separate sheet.
4. Enter the storage facility permit number.
5. Enter the quantity of each type of water delivered to a recharge/storage facility by each right listed. If you receive a type of water not listed, enter the type in one of the blank boxes.
6. Enter the total water sent to storage/recharge from each right in the Total Stored column.
7. Total the Total Stored column.
8. Enter the total of each type of water received in the Total Acre-feet Received from the Other Rights row.

### Part III - Water Received Pursuant to a Permitted or Enrolled Exchange Agreement

1. Record all water received as part of a Permitted or Enrolled Exchange Agreement. Enter the Exchange Number of the entity supplying water.
2. Enter the measurement method. If the volume of water was estimated, include an explanation of the estimation method on a separate sheet.
3. Enter the quantity, type, and year given for water received for which this water is payback.
4. Enter the quantity of each type of water received from each Exchange Number listed. If you receive a type of water not listed, enter the type in one of the blank boxes.
5. Enter the total water received from each Exchange Number in the Total Received column.
6. Total the Total Stored column.
7. Enter the total of each type of water received in the Total Acre-feet Received in Exchange row.
8. Enter the total water received/diverted (Part I + Part II + Part III) and transfer this total to Part III of the Summary Page.

Please contact your local Active Management Area if you need assistance completing this form.
