

Modified Non-Per Capita Conservation Program

A New AMA Regulatory Program for Large Municipal Providers*

Required for those that do not have a Designation of Assured Water Supply;
Optional for those that do.

Public Education Program

- Communicate to customers about water conservation.
- Provide free written water conservation material.

BMPs (Best Management Practices)

- Implement 1 BMP if you have up to 5000 connections, 5 BMPs for 5001 – 30,000, and 10 BMPs for > 30,000 connections.
- Select BMPs that match your service area characteristics and/or water use patterns from the list of 53 BMPs.

Provider Profile

- Due within 6 months of notice date
- Resubmit every 3 years.
- If service connections increase to a higher tier, a new Profile is due within 60 days.

Conservation Efforts Report

- Submit with your Annual Water Withdrawal and Use Report on or before March 31.

Rate Structure

- Submit with your Provider Profile.

**Large municipal providers serve more than 250 acre-feet of water per year for non-irrigation use.*
