

Meeting Notes

Regulations and Permitting Working Group

Blue Ribbon Panel on Water Sustainability

Tuesday, June 8, 2010, ADEQ, Phoenix, Room 3100B

1. Chair Ron Doba called the meeting to order at 10:00 am. The group went through brief introductions.
2. Discussion took place on how the group wanted to work during the next phase of work for completion of the final report. The general consensus of the group was to meet as a whole instead of separate subcommittees with longer meetings. Some members indicated it was hard to attend all the meetings they wanted to attend with the subcommittee structure.
3. The group proceeded to review the draft report paragraph by paragraph. Comments were made and changes were made.
4. At approximately noon, the group decided another meeting would be necessary to complete review of the report. Another meeting was planned for Thursday 6/10/2010. Ron Doba indicated he would locate a room and notify the members where the meeting will be by email that evening.
5. The meeting adjourned at approximately 12:05 pm.
