Docket Supervisor Sharon Scantlebury
Az Department of Water Resources
3550 North Central Ave.
Phoenix, AZ 85012

RECEIVED

JUN 03 2015

LEGAL
DEPT OF WATER RESOURCES

I am a property owner in the area. This letter will serve as my firm opposition to the proposed INA near San Simon for the following reasons.

1. My property value will go down simply because I've not irrigated in five years (never mind I intended to over the next five once I'm retired). This is arbitrary.
2. Tax revenue for our county will decrease as my property value declines.
3. Government should only regulate based upon solid science that shows it is in everyone's best interest (said science is not agreed upon in this case). Mr. Blitho formerly with the ADWR said, "The technical data does not support establishment of an INA".
4. If those in favor of this INA were sincere, they would also agree to let their water rights be restricted like mine (since they won't, it tells us their true selfish financial motives). Their efforts to restrict my water rights would leave them as advantaged business owners of a monopoly.
