# Sub-basin Water Level Change Map Book

**Arizona Department of Water Resources – Hydrology Division**

**Statewide Hydrologic Monitoring Report**

**(Late 1980s Early/Mid 1990s to Mid/Late 2000s)**

**May 2012**

**Dianne Yunker & Frank Corkhill**

# Introduction

This water level change map book is presented as a supplement to ADWR's recently published Statewide Hydrologic Monitoring Report (available at www.azwater.gov) The water level data that are presented in this report were selected from measurements compiled in the ADWR Groundwater Site Inventory (GWSI) database. The beginning and ending years that were selected for data analysis for each basin generally corresponded to water level "sweep" years that covered the period from the late 1980s and early 1990s to the mid-to-late 2000s. Statistical analyses and a detailed discussion of observed water level changes, and other data, can be found in the main report which is referenced as:

Corkhill, 2012. Arizona Department of Water Resources – Hydrology Division, Final Report, Statewide Hydrologic Monitoring Report (Late 1980s Early/Mid 1990s to Mid/Late 2000s)

The following table provides a list of the sub-basins in this map book along with the associated basins and planning area or AMA and the periods over which water level data was collected in that sub-basin. The 83 Arizona Sub-basins are listed and presented in the following maps in alphabetical order.

| Sub-Basin | Name | Begining Mo/Yr | Ending Mo/Yr | Basin | Planning Area or AMA |
|---|---|---|---|---|---|
| AGF | AGUA FRIA | Oct-91 | May-08 | AGUA FRIA | CENTRAL HIGHLANDS |
