Here is the King et al 2003 paper that Swanson references and more recent Arthington and Poff papers FYI.

Peter N. Reinthal, PhD  
Director, Arizona Museum of Natural History  
Department of Ecology and Evolutionary Biology  
The University of Arizona  
Tucson, AZ 85721  
520-621-7518

Attached is the only reference cited in Swanson's report that I have in my library. I find it curious that all of his references are so dated. I have dozens of more recent articles on this topic, many of them directly based on Arizona streams.
