

CERTIFICATION OF LEGAL ACCESS TO FACILITY

The Arizona Department of Water Resources considers an applicant for an Underground Storage Facility (USF) permit to have legal access to the proposed USF site if it has a deed, easement, lease, judgment, license, right-of-way permit, or other document that demonstrates the applicant has the legal right to access the proposed site for the purposes of constructing and operating all necessary components of the entire USF project. If the applicant does not have legal access, the applicant must have the exclusive right to acquire legal access to the site, such as a purchase contract or other agreement with the site owner.

By signing below, the applicant for the _____ USF Facility certifies under penalty of perjury that it has legal access or the exclusive right to acquire legal access to the proposed USF site, and certifies it will maintain same for the duration of the USF permit.
