To Whom It May Concern:

I am in favor of the current draft of the 5MP that has been presented. I thank the ADWR working with the Cactus and Pine and the Arizona Alliance for Golf in finding a reasonable plan to allow golf course to continue to operate. Though the plan will strain golf course operations, it is the best plan to date for the different styles of golf courses. By working with the golf industry it is positive to see the effluent adjustments and credits that is a valuable tool used by many courses in an effort to reduce ground water use while meeting allotment criteria. I hope that the ADWR will continue to work with professionals in the field, Cactus and Pine, and AAG in the future as partners in water conservation.

Thank You,

Andrew Hitchcock
